# Scroll-Compressor Technology

## New in 1994

*You may pay less for some dairy farm equipment... but it can cost you more!*

In the long run, total operating costs of a Mueller® milk-cooling system are generally substantially less than those of "bargain-priced" milk-cooling equipment.

*Equipment cost is not the only cost of cooling milk.*

Example	Mueller	Competition
Cost of equipment	\$31,000	\$28,000
Cost of electricity @ .08 kW for 12,000 lbs milk/day for 10 years	\$ 17,550	\$22,850
<b>Total operating cost for 10 years</b>	<b>\$48,550</b>	<b>\$50,850</b>
<b>Savings</b>	<b>\$ 2,300</b>	

*Mueller scroll compressors have higher energy-efficiency ratings (EER), and are highly durable with only two major components, compared to our competitors' reciprocating compressors requiring 12 parts.*

**Call your Mueller distributor about the system for your farm business.**

**PENNSYLVANIA**
