See Binkley & Hurst Bros. For Quality New Rhino Equipment To Do Your Job Right!

RHINO

If It's Snow Removal Or Heavy Duty Excavating, You Need A Rhino Blade From Binkley & Hurst Bros. Now!

A support stand is standard on the 800 Blade to provide safer storage and unit hook up. The moldboard and replaceable cutting edge form a constant curvature to cut and roll the material being worked more efficiently. Optional equipment includes quick tach end plates, skid shoes, and CAT II quick coupler bushings.

The 800 Blade features mainframe swing, moldboard pivot, and moldboard tilt to fit a wide range of applications. The blade can be offset a maximum of 30" from the center line of the tractor for working outside the tractor tire. The moldboard can be pivoted a full 360 degrees for backfilling or working in hard to reach areas.

RHINO REAR BLADES

With Hydraulics For Tractors Rated From 75-150 DBHP. Available w/7', 8', 9' & 10'

Moldboards. Also Smaller Heavy Built Units In Stock

• Rhino Model LR 6' 7'-8' 3 Pt. Blades
R950 w/8'-9' Blade

Rhino disc mowers feature an easy access cutterbar. The innovative design of the cutterbar allows access to the disc spindle shaft and gear module without disassembly of the entire cutterbar, reducing maintenance costs and downtime. The hardened rock guards are designed to help protect the entire leading edge of the cutterbar from damage and, along with the skid shoes are easily replaceable. A heavy duty CAT II & Cat II offset three-point hitch made of 4"x6" thick-wall tubing is standard to provide dependable service. A safety breakaway system is built in to provide mainframe protection against sudden impacts when mowing. With 5" of blade overlap and blade tip speed of 15 814 FPM, Rhino disc mowers provide a clean, smooth cut. Rugged construction and high performance are two reasons Rhino disc mowers are the ideal choice for fast, efficient grass mowing.

RDM DISC MOWERS

The innovative design of the cutterbar allows easier access to the disc spindle shaft and gear compared to some competitive units. The gears run in an enclosed oil bath for constant lubrication. The blades are reversible and easily replaceable for lower maintenance costs and minimal downtime.

The new Rhino RDM Series Disc Mower is designed for faster, efficient mowing of grass pastures and hay meadows and offers features not found on many competitive units.

The cutterbar can be easily raised to the transport position hydraulically from the tractor seat. A parking stand is standard for easier unit storage and "hook-up".
