JUNIATA

HAROLD AND JANET SHEARER

Harold and Janet Shearer's family has been farming this Dairy of Distinction since 1939 when Harold's father bought the farm. In April of this year, Donna and Jason Wadle took over the farm and have been doing very well with Registered Holstein cows that average 20,000m 700f 630p. But right now it's disappointingly dry. They have 475 acres with 25 in pasture and more acres that could be adapted to the new push to rotational graze the cows. They believe it takes diligent work and the ability to make things happen. Harold said when he was younger, farming was fun, but lately it has become more of a drag, so he is pleased that a young couple have taken over the dairy herd.

RON AND DESI MUMAH

Mu-Ke Holsteins have a new Dairy of Distinction home. Located one mile south of Port Royal in Juniata County, Ron and Desi Mummah and their daughters Danielle, 15, and Ronda, 13, farm 252 acres and milk 65 Registered Holsteins and have an additional 65 head of young stock. Milk production average is 21,000 lbs. The farm has been in the family 10 years. They milk in a tie-stall barn and raise corn, alfalfa, and a few oats. They believe the most important management practice is to keep the cows cool. The cows are out in the mornings and at night but kept in the barn during the day.

Congratulations Dairy of Distinction Award Recipients

JOHN DEERE

SAVE HORSEPOWER, TIME, AND MONEY

- Only John Deere forage harvesters feature the Dura-Drum™ cutterhead, with economical segmented knives less plugging.
- Knife sharpening is a breeze. Adjustment, a cinch.
- When damaged, replace only a short knife for a fraction of the cost of one full-width knife.
