**New Shape**  
The difference is the shape of the feeder's trough (at right). ULTRAFLO II's higher trough lip reduces feed waste by keeping it in the trough and not on the floor or in the pit.

### The Right Choice in cage feeders

Chore-Time's popular ULTRAFLO® Cage Feeding System is now even more outstanding! We've developed and tested the second generation of ULTRAFLO feeders and named it the ULTRAFLO II. ULTRAFLO II offers you even greater reliability, durability, and outstanding feed-saving performance—up to 1 gram of feed per bird per day—over the original ULTRAFLO. And even the original ULTRAFLO was beating our competitors in feed savings! So, join the cage feeding leader. Contact us today. Find out how Chore-Time and ULTRAFLO II can help you be a leader, too!
