Use Fluorescent Lighting For Energy Savings

U-TUBE LAMP & SUPPLIES

...the biggest advantage of these lamps is the economic savings over the life of the bulb. Once the initial investment is paid back, which will be done in less than six months, the increased electrical economy make such bulbs the most logical way to light.

PHILIPS

ENERGY EFFICIENCY AND LONGER LIFE

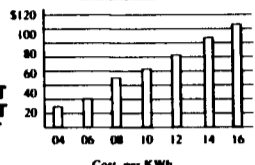

Earth Light Collection lamps pay for themselves many times over by providing significant savings on energy, maintenance and replacement. Compared to ordinary incandescent lamps, Earth Light Collection lamps save up to 75 percent on energy. The SLS23, for example, will save 367% over the life of each lamp. What's more, these energy savings are accompanied by savings on maintenance and replacement. With an average life of 16,000 hours, Earth Light Collection lamps last up to 10 to 15 times longer than ordinary incandescent.

It's Time To Change Your Bulb® PAR HEAT LAMP

- 175 W
- 30% Wattage Reduction. Savings Of Over \$37 Per Lamp Over The Life Of The Lamp = Energy Saving
- Long Life

REPLACEMENT BALLAST U-TUBE

AGRICULTURAL WINCHES

For chicken housing and other agricultural uses

DOSATRON LIQUID DISPENSER

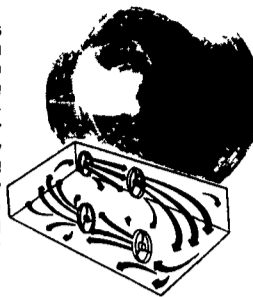

- Disinfectants • Sulfas • Vaccines • Wormers
- Vitamins • Fertilizers • Chemical Additives... Into Livestock and poultry drinking water or into irrigating systems.

Adjustable ratios: 1:100, 1:120, 1:200
 Dosatron 7 GPH Technical Specifications:
 Features: 1:100, 1:120, 1:200
 Minimum Flow: 13 GPH
 Maximum Flow: 48 GPH
 Min. Oper. Pressure: 7 PSI
 Max. Oper. Pressure: 72 PSI
 Connections: 1/2" NPT
 Height: 11"
 Width: 9"
 Weight: 3.5 lbs.

Schaefer Barn Kooler®

The Barn Kooler® System incorporates a series of fans and controls into an integrated system that is used for both high velocity air circulation for cooling during the Summer and gentle, draft-free air movement during the Winter months. By utilizing thermostatically controlled speed modulators, the speed of the circulating air is constantly adjusted to the temperature. As the temperatures in the building rise and fall, so does the volume of air being circulated.

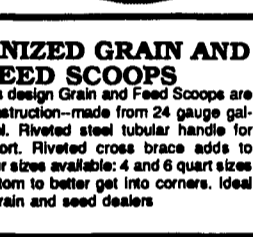

WATERERS DOUBLE WALL FOUNTAINS

These are heavy-duty, galvanized steel fountains with double-wall construction which helps keep water cool to promote intake. Constant water level is maintained in pan by vacuum. No floats to get stuck or be replaced. Outside body has top handle and positive, visible locking device. Handle on inside body is above water line for easy carrying. Top is designed to prevent roosting. Inner tank has brass valve with rubber sealing washer for positive shut-off. Brass spring valve closes water outlet when outer can is removed, replacing outer can releases valve and opens water outlet. Bottom pan is unsealed mechanically to tank for leak-proof performance.

ONE GALLON PLASTIC JAR WATERER

Most popular plastic waterer. Opaque jar made of high density polyethylene. Flat top on jar allows for free-standing and easy filling. Screw-on base made of durable, high impact styrene.

GALVANIZED GRAIN AND FEED SCOOPS

New Delphos design Grain and Feed Scoops are sturdy in construction—made from 24 gauge galvanized steel. Riveted steel tubular handle for added comfort. Riveted cross brace adds strength. Four sizes available: 4 and 6 quart sizes have flat bottom to better get into corners. Ideal scoops for grain and seed dealers.

NESTS

New Delphos design square nests are made from heavy galvanized steel. Removable painted bottoms for easy cleaning. High front and back panels to eliminate scratching of litter out of nest. Vertical ends and all partitions are punched for proper ventilation, an important factor in hot weather. Roof is pitched to prevent roosting. Folding perches, 2 for bottom tier (14 Hole Nest has 1 bottom perch) and 1 for top tier, are spaced to eliminate litter build up.

RABBIT EQUIPMENT METAL NEST

Large galvanized steel nest for maximum comfort with no sharp edges or hard to clean surfaces. Ventilated sides and floor keeps the litter dry and prevents potentially lethal heat buildup.

SELF-FEEDER

DESIGN WITH HOLES IN BOTTOM TO STOP FEED AND CHICK TO PASS THROUGH. HO STOPS FEEDER MADE TO LAST, AND PLUGS THAT DO NOT USE SCREW OR WIRE THAT CAN RUST OR BE CRAWLED THROUGH. ALL RABBIT FEEDERS ARE HEAVY DUTY — NO SPOT WELDS TO RUST OUT.

FANS FANS FANS 36" to 48" Keep Cool

BELT DRIVE OR DIRECT DRIVE PANEL FANS FOR AGRICULTURE
 Guaranteed Lowest Price

PROPELLER
 All galvanized blades riveted to matching heavy gauge galvanized spider. High performance camber twist propeller, stabilizes air flow through lower speeds.

FAN STRUCTURE
 • All galvanized frame and orifice - corrosion resistant, long lasting

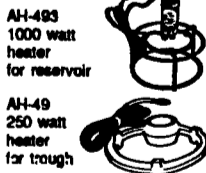

BIG HUSKY

When it says BIG HUSKY Its gotta mean quality

POLY WATERER

- Improved UV stability over competition
- Our dependable Delrin valve and float
- TWO YEAR GUARANTEE
- STAINLESS STEEL CHEW GUARDS
- Optional holdown brackets
- Optional heat for winter
- Large snap down 12" Cover
- Special grooved side for heater cord protection
- Gallon calibration molded into sidewall

- Two large 18 x 20 recessed drinkers
- Easy clean out with recessed drain plug
- Waterer is lightweight but 15% thicker and 20% heavier than competitors

STOCK NUMBER	CAPACITY	SPRINGER DIMENSION	DRAINING SPACES	FEED CAPACITY	DIAMETER
WP-50	50 gal.	18"x20"	2	60-100 lbs.	36"

HOG WATERER

- Built strong and rugged like our name.
- 100 gallon capacity.
- Five drinking spaces on each side.
- Drinking trough 3 1/2" deep, 6" wide.
- Trough made from heavy 16 gauge steel.
- Heavy galvanized steel body, lock sealed with heavy swedging.
- Drain plug on end for easy draining.
- Side straps made from stainless steel.

BIG HUSKY SUMMER FOUNTAIN

- Dependable float valve.
- 6" top fill hole.
- Heavy 11 gauge and pull.
- Oak skids.

Number	Height	Width	Length	Ship. Wgt.
1490	33 1/2"	36"	45"	105 lbs

BROODERS

B-73 SINGLE DECK ELECTRIC STARTING BROODER

Wider than most brooders for more chick capacity, brooder is equipped with two feeders and one water pan. Sliding door and two piece top for convenience in moving chicks. Galvanized steel mesh floor and dropping pan and removable to make cleaning easier. Removable curtain separates heated areas and reduces heat loss. Adjustable wire grille. Heat controlled by automatic thermostat using 200 watt porcelain insulated Nichrome wire element, automatic snap switch and thermostat waster. Plugs into ordinary electric outlet — 110 volts, 60 cycles, A.C. Use in draft-free areas where temperatures do not fall below 60 degrees F.

HANGING FEEDERS

GAME BIRD FEEDER

Bail handle permits hanging anywhere or use inside B-73Q brooder when using as single deck. 1 1/2" of eating space. Feeder is 8" high.

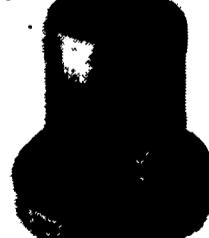

15 LB. CAPACITY FEEDER

For use with baby chicks to 6 weeks. Specially designed for quick and easy assembly. Tapered body prevents feed bridging, also allows the bodies to nest during shipping and storage. Galvanized steel pan has feed-saver lip. Two feed level adjustments. No cross rods to restrict feed flow in tube body.

GAME BIRD FEEDER

Same as the F-Q1 but shorter. Feeder is designed to fit into the B-73Q Game Bird Box Brooder when stacked in battery (multiple decks).
