NATIONAL EGG MARKET - AT A GLANCE: Prices were generally unchanged except brown extra-large in New England were unchanged to higher. The market tone was steady. Demand covered the full range and was mostly moderate into retail channels, and often good into food service and institutional avenues. Supplies of brown eggs remained short in New England, and tight in other areas. White egg supplies were adequate or available. Breaking stock supplies were adequate from regular sources, and plants provided an unaggressive demand for additional supplies partially due to the upcoming holiday weekend. Spent hen offerings were at least adequate for the light demand.
