Breeders Contacted By Longenecker's Hatchery, Inc.

Chore-Time's new and exciting auger system is so fast it fills all troughs in 500-ft. houses in only 5 minutes. Then all birds eat simultaneously. No picking over of feed. It's the ultimate breeder feeder!

• Fast feed delivery—less competing, less stress, better performance, better health and all that. • Easy to adjust, no feed line adjustment is ever needed. • Uniform ration throughout the house—uniform birds. • Available with humidity or "all birds" drive. • Use Chore-Time **WEIGH-MATIC** bin to allocate daily rations before feeding.

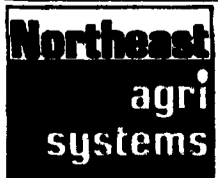

Control panel for the auger system of a broiler breeder house. The panel has a digital display showing the number of birds in the house. The panel also has a power switch and a reset button. The panel is mounted on a wall and is easy to use.

CHORE-TIME WEIGH-MATIC® System with feed screener

Authorized **CHORE-TIME** master distributor since 1982
