WARNING - If Your Family Owns Assets In Excess Of \$1,200,000 Get This Report!

The definition in Washington DC of "well-to-do" might as well mean "target." This FREE Report points out financial traps that can let the IRS and attorneys legally take up to 70% of your family estate. Better yet, it shares tips and techniques you can learn more about to "bullet-proof" your financial assets from taxes and lawsuits!

Washington DC - The new administration and the IRS are on a mission to confiscate the wealth of people who have made a financial success of their lives.

Anyone with more than \$1,200,000 of net worth is now slated to be nailed with incredibly high income and estate taxes. The new "politics of envy" makes you a convenient target for those who feel what is yours should now be "everyone's!"

Under current tax law, if you accumulate too much money in certain assets, you could pay taxes as high as 70%! Under proposed new tax laws, the Clinton Administration wants to decrease the amount you can legally give your family, as well as reduce the amount you can leave your children and heirs, estate tax free!

Evidently a new kind of "McCarthy like"

witch hunt is cropping up that says "If you have a significant financial net worth, you should pay through the nose, to bring more money into the U.S. Treasury!"

Paying your "fair share" is one thing. But there is no reason to allow the government and the legal system to seize over half your money without a fight. (Yes, they legally can and will take over 50% of your money, if you let them.)

To help you better understand what we are talking about, we've prepared a FREE REPORT "How To Legally Keep The IRS And The Attorneys Out Of Your Pocket!" Find out how to protect yourself and your assets! To get your free copy of this report, call the toll free recorded message line listed below and a copy will be mailed to you.
