**BARN CLEANERS**

Built to clean faster... built to last longer!

All-forged Hook-Link® chain... available on Super 300 and Super 500 barn cleaners  
Extra thick steel at all wear points

IMPORTANT: Look for the "parting line" on any barn cleaner chain you buy. It shows where excess metal has been trimmed off. It is your assurance that the link was totally forged, not just punched out of a flat steel bar with grain flow in one direction only.

You want a totally-forged link because forging changes the grain on the steel, causing it to curve in unbroken flow lines around the contours of the link, giving the link greater strength to serve you longer.

1/4" Paddles

YOU WON'T BEAT OUR PRICES & SERVICE

**3 SILOS AND UNLOADERS**

**TOWER SILOS: HIGH PROFIT STORAGE FOR HIGH ENERGY FEEDS**

Preserving high energy corn silage is obtained only through efficient, effective storage. Storage that saves the most nutrients. Storage that delivers the highest overall long term benefits. Storage that offers better total performance than any other method of preserving valuable corn silage.

Tower silos control the fermentation process and retain the most feed. With tower silos you'll get better feed...more feed...with lower overall costs and less labor than any other storage method.

*"When it comes to high profit storage for high energy feeds, other systems just don't measure up."*

For more facts on tower silos, contact YOUR LOCAL SILO COMPANY or:
