

IT PAYS TO FEED PURINA

In January of 1993, Joe Brechbill of New Paris, Bedford County, PA decided to try Purina's Maxi-Tech 40 program to improve his breeding and overall herd health. DHIA numbers are listed below for the past year and a half on Purina:

Date	RHA	BF	Protein	*IDFC	Services/ Conception	Calving Interval
12/92	19580	687	619	1560	2.7	13.6
7/94	<u>22040</u>	<u>731</u>	<u>671</u>	<u>1926</u>	1.6	12.9
	+2460	+44	+52	+366		

* milk price dropped \$.59/cwt over this period

Producer Comments:

- "Overall herd health is much better. Our vet rarely comes to the farm."
- "This is the most expensive feed program I have ever fed, but I have more income left at the end of the year than ever before."

Not only did Joe's breeding improve dramatically over the last 19 months but milk production also increased by 2460 pounds over the same period. Joe milks 70 cows 3x/day and feeds a one-group TMR consisting of haylage, corn silage, dry hay, dry shelled corn, barley, and Purina Maxi-Tech 40.

Purina thanks Joe Brechbill for sharing his records and for giving us the opportunity to help him solve his problems and achieve his high production and income goals.
