

THE FUTURE GENERATION IS HERE NOW!

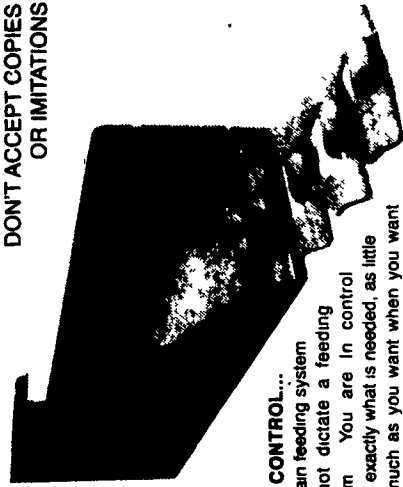

No matter what you have heard from our competition, Big Dutchman is still Number One, with the best cage systems by far. Locally some Big Dutchman systems are approaching their twentieth year of service, and still going strong.

- FUTURE GENERATION COLLECTION
- FUTURE GENERATION MANURE REMOVAL
- FUTURE GENERATION FEEDING
- FUTURE GENERATION CAGES
- FUTURE GENERATION ENVIRONMENTAL CONTROL
- ALL BUILT IN AMERICA

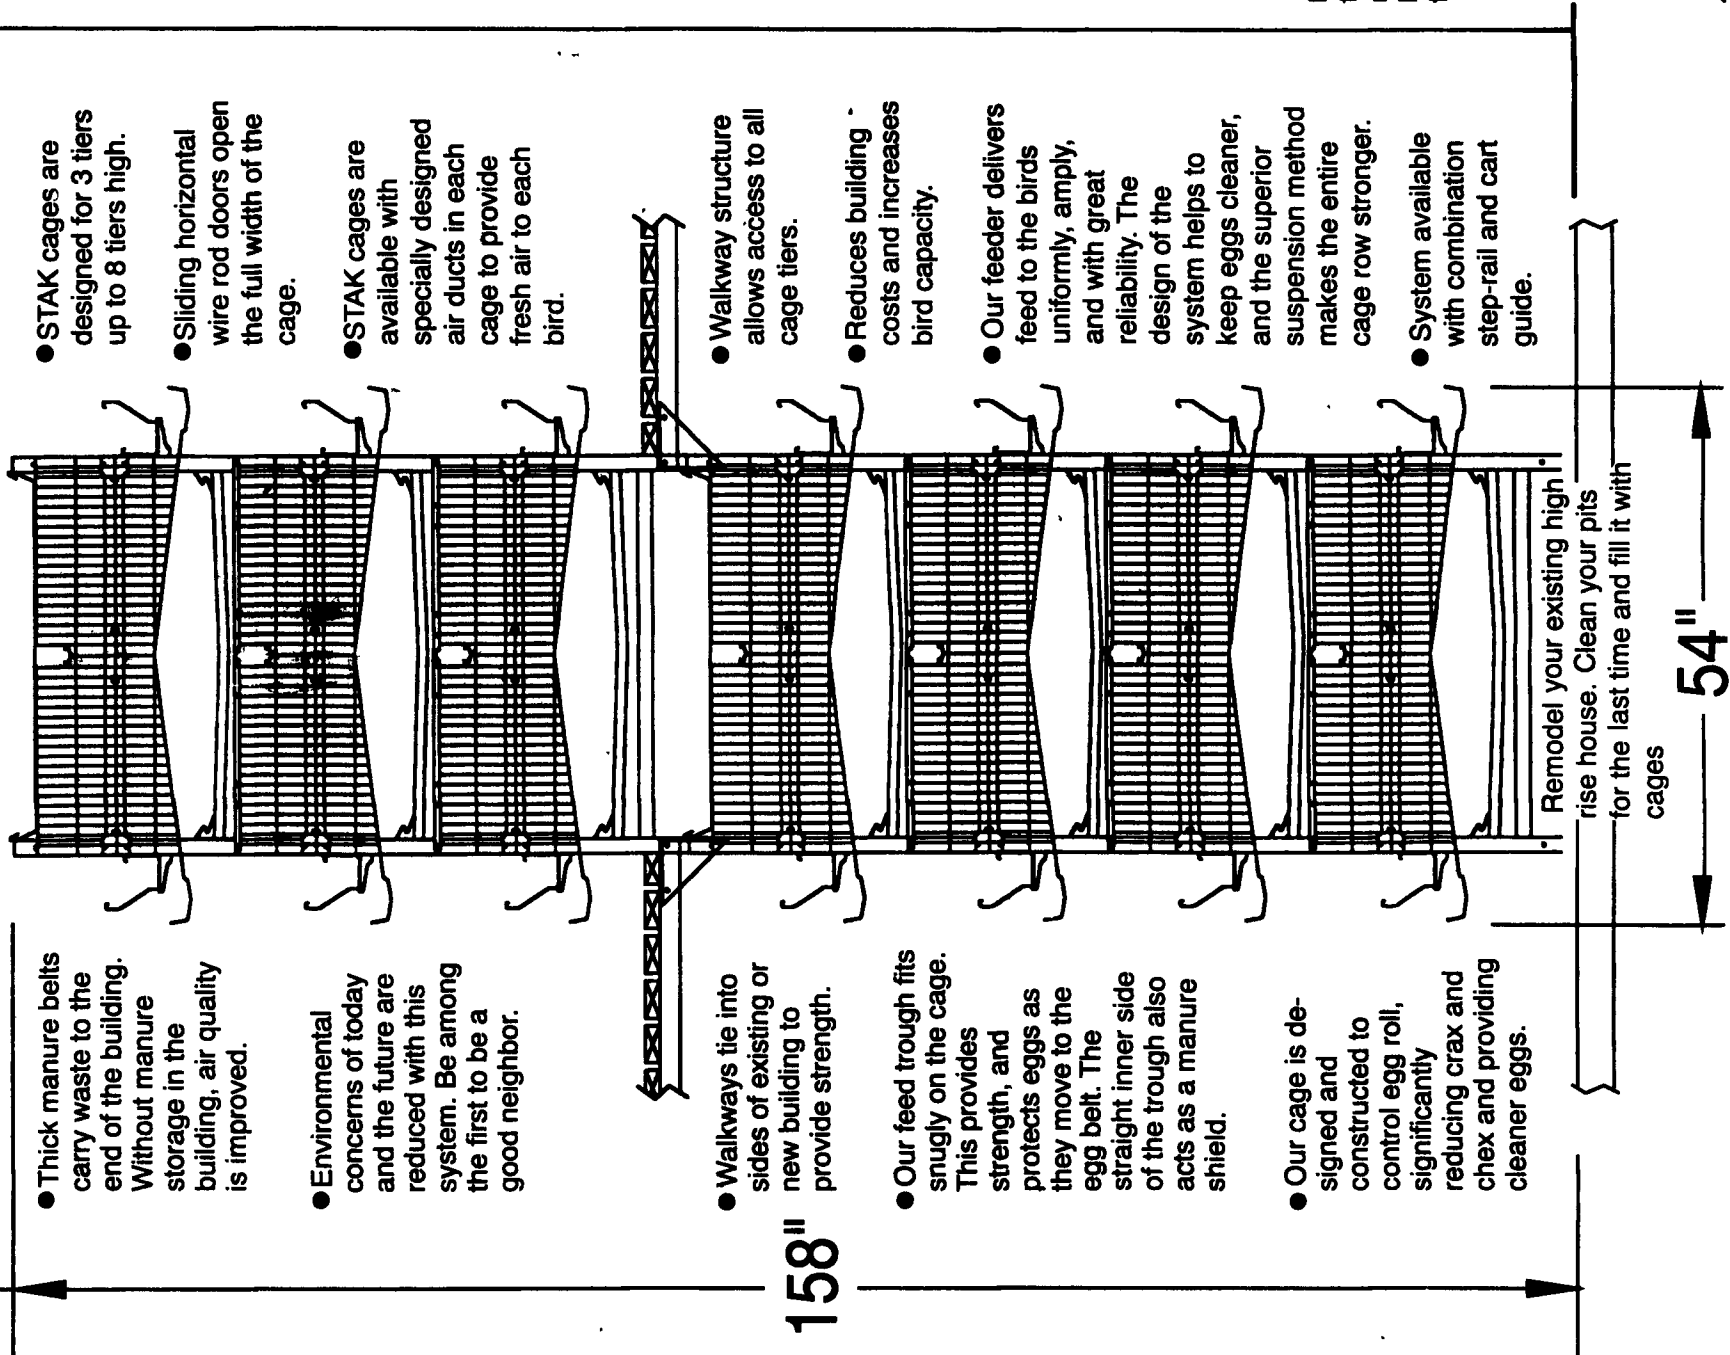

THIS SYSTEM ONLY AVAILABLE THROUGH HERSHEY EQUIPMENT.

FEED CONTROL...
The chain feeding system does not dictate a feeding program. You are in control feeding exactly what is needed, as little or as much as you want when you want.

BIG DUTCHMAN STAK CAGES

- Thick manure belts carry waste to the end of the building. Without manure storage in the building, air quality is improved.
- Environmental concerns of today and the future are reduced with this system. Be among the first to be a good neighbor.
- Walkways tie into sides of existing or new building to provide strength.
- Our feed trough fits snugly on the cage. This provides strength, and protects eggs as they move to the egg belt. The straight inner side of the trough also acts as a manure shield.
- Our cage is designed and constructed to control egg roll, significantly reducing crax and providing cleaner eggs.
- STAK cages are designed for 3 tiers up to 8 tiers high.
- Sliding horizontal wire rod doors open the full width of the cage.
- STAK cages are available with specially designed air ducts in each cage to provide fresh air to each bird.
- Walkway structure allows access to all cage tiers.
- Reduces building costs and increases bird capacity.
- Our feeder delivers feed to the birds uniformly, amply, and with great reliability. The design of the system helps to keep eggs cleaner, and the superior suspension method makes the entire cage row stronger.
- System available with combination step-rail and cart guide.

Remodel your existing high rise house. Clean your pits for the last time and fill it with cages

Big Dutchman®

Couple the Big Dutchman cages with a Hershey-designed building and equipment installation and you have an unbeatable combination for service and efficiency. A Hershey system is better ventilated, and has been proven to use less electricity.

Big Dutchman's policy is one of continuous improvement

"PAMPER" EGG COLLECTION ... The Big Dutchman vertical egg collection unit is unsurpassed in pampering eggs.

QUALITY EGG BELT... We offer our standard 3/4 inch woven fabric belts. A shallow "V" shape in the wire egg tray keeps eggs in the center.

DISCHARGE OPTIONS... Eggs can be discharged from the collector below the floor, at floor level, or at a varying height discharge which best suits your house.

PROVEN ROD CONVEYOR... The rod conveyor moves eggs from the collector to the packer with no rolling or colliding. It can move up and down inclines, and is ideal for moving eggs between several houses and the packing room in multi-building farms.
