There's nothing more important to a crop than early even emergence. To get it, you need accurate, even seeding.

The 5300 has earned a reputation for its seeding precision, a function of its exclusive feed cup design and dependable disk openers. And, to improve placement of seed, the opener drawbars are heavier than on previous models. Press wheels and opener bearings are heavier for long life operation.

Along with accuracy, the 5300 gives you fast, high capacity seeding, so you spend less time refilling hoppers. Grass seeding attachment for 16x7.
