New Rhino Equipment To Do Your Job
Right!**

RHINO

**If It's Snow Removal Or Heavy Duty Excavating, You
Need A Rhino Blade From Binkley & Hurst Bros. Now!**

A support stand is standard on the 800 Blade to provide safer storage and unit hook up. The moldboard and replaceable cutting edge form a constant curvature to cut and roll the material being worked more efficiently. Optional equipment includes quick tach end plates, skid shoes, and CAT II quick coupler bushings.

The 800 Blade features mainframe swing moldboard pivot, and moldboard tilt to fit a wide range of applications. The blade can be offset a maximum of 30° from the center line of the tractor for working outside the tractor tire. The moldboard can be pivoted a full 360 degrees for backfilling or working in hard to reach areas.

Rock Pickers & Rakes NOW!**

REMOVE ROCKS BEFORE FALL SEEDING
**We Have 2 Models 6000 Rock Pickers
Ready To Work
1 Hyd. and 1 PTO Unit**

Grated Hopper Bottom

We use spring steel straps in the hopper instead of using milder steel. The hopper is engineered to bounce back in shape.

Hydraulic Drive

The most popular drive on rock pickers is hydraulic which is standard on the 6000. We have incorporated a relief valve to take away the shock when disengaging the drive.

Flotation Tires

The 16.5Lx16.1 flotation tires are standard equipment and are a must to reduce soil compaction.

Reel Assembly

We are using the same reel as the proven Super Picker 6800. The three paddle reel has a large diameter, hard surfaced teeth and heavy duty paddles.

Swing Pole

The manual swing pole is easy to maneuver in both working or transport position.

Solid Shaft Grill Tines with Replaceable Grill Tips

This modern grill is easier to maintain, has longer life giving you less down time. The unique grill provides five feet of clean sifting and virtually jamless performance.

may be all the picker you'll need!

The Signature 6000

SEE BINKLEY & HURST FOR TRACTOR MOUNT DOZER BLADES

4600 & 5700 Series

The Degelman 4600 & 5700 hydraulic angle Bulldozer Blades attach to both front wheel assist and two wheel drive farm tractors. They incorporate a clean looking, low profile design and are built strong with tough, heavy duty construction to achieve a dozer blade that's ready to tackle demanding farm jobs.

Ease of operation, built-in quality and the convenience of finger tip hydraulic angle control are only a few of the many features you'll appreciate.
