# John and Christine Fron

## Frontastic Holsteins

Jermvn, Pa

This picturesque dairy in north eastern Penna. started in 1930 during the depth of the depression by John's grandfather and dad Charlie "we had two horses and one cow and had to buy hay that year" says Charlie...

... Today John, Christine and Charlie work together as a team to make milk and improve genetics of the herd.

John started feeding Purina Test Cow 20% complete in 8/92. In the fall of 1993 John added Purina Super EXT Complete 20% to his feeding program. Cows consume 25# corn silage. 25# MML haylage .7# drv hay. milking ration is fed according to production with 33# as a max. Purina Dairy Freshener PAK is top dressed 10 days prior to calving thru 60 days.

John says "production has increased nicely, and we appreciate the service from Purina's mill and staff at Wyalusing, Pa."

"Wanda's genetics and Purina Chows bring us into the future." says John
