

These Pictures Were Taken At Ag Progress Penn State 1993 And Equipment Shown At Work Was Furnished By Binkley & Hurst Bros.

It Takes A Sunflower Ripper To Take This Type Of Punishment, So Buy Heavy Duty Tillage, Buy Sunflower And A New Case IH Magnum Tractor From Binkley & Hurst For Outstanding Performance

Sunflower Tillage ("The Best") From Binkley & Hurst Bros. Now!

This series of photos shows a deep-tillage device called a V-ripper as it digs 15-inches into the soil to loosen the hard-packed soil. In hay for more than 25 years, the field was used for many years as a parking lot at Ag Progress. Over the years, during dry and wet conditions, cars and other equipment packed the soil, inherently full of rocks and clay, which help contribute to compaction. Also called a subsoiler, the V-ripper breaks up the lower layers of topsoil and the subsoil to allow for better plant root growth.

Once A Parking Lot, Now A Deeply Tilled Field By Binkley & Hurst Bros. Heavy Duty Sunflower Tillage Equipment And Case IH Magnum Tractors All Sold And Serviced By Binkley & Hurst Your Dealer For Heavy Duty Equipment

ANDY ANDREWS
Lancaster Farming Staff
ROCKSPRING (Centre Co.) — Once upon a time, they needed a place to put cars. So they used a hay field. The hay field, you see, goes back, way back, to a time before tons of cars and equipment were invited onto it, in conditions rainy and dry, to pack it down.

Its usefulness as a parking lot served well, but for growing crops, well, that was in question. It was solid hard-pan. Dusty and rocky. Nearly unfit for farming. Until a deep tiller, what tillage experts call a "V-ripper," arrived one day. Despite the rocks, clay, hard-pan, and dry, dry soil, the V-ripper did its job, and dug down deep — 15 inches deep, to be exact. The subsoiler helped loosen and dislodge the compaction layer so harmful to good root growth and overall crop condition. The photos here depict the "V-ripper" at work during a special deep tillage demonstration on Tuesday afternoon at Ag Progress Days.

GET EVEN STANDS

In Stock - • 20x6 Plain Type With Soybean And Grass
• 24x6 Seed Attachment, And Press Wheels
• 16x7- Equipped With Fertilizer Attachment, Press Wheels, Grass Seeder, And Soybean Attachment

There's nothing more important to a crop than early even emergence. To get it, you need accurate, even seeding.

The 5300 has earned a reputation for its seeding precision, a function of its exclusive food cup design and dependable disk openers. And, to improve placement of seed, the opener drawbars are heavier than on previous models. Press wheels and opener bearings are heavier for long life operation.

Along with accuracy, the 5300 gives you fast, high capacity seeding, so you spend less time refilling hoppers. Grass seeding attachment for 16x7.
