STAY WARM THIS WINTER IN A COMFORTGARD CAB

The New Benchmark for visibility and comfort

When you're more comfortable, you're more productive. And the new ComfortGard cab is the most comfortable cab available.

It's 40 percent larger

Visibility is better

You're more comfortable

A new air quality system keeps you cool Or warm. And it's the quietest cab around. The engine and transmission use special mounts to absorb vibration; curved glass deflects sound into acoustical padding; and the body side panels, doors, and windows are all separately sealed to keep out noise, dirt, and moisture.

JOHN DEERE BALERS DELIVER CONSISTENCY, CONSISTENTLY

Building "square-er," stackable, solids bales is what our proven hay control system is all about.

Once hay is inside the baler, a continuous-flow, floating auger moves the crop into a tapered chamber...precompressing the hay before it reaches the bale chamber. This makes John Deere bales denser, and more consistent. A difference you'll notice when stacking and feeding bale after John Deere bale.
