OUTSTANDING BALER PERFORMANCE MEANS GREATER NUTRITION AT AN ECONOMICAL PRICE

Case International 8520/8530 Rectangular Balers

These two balers both feature the Case IH center line design. Eliminates turning corners with the crop to get it into the bale chamber, as is common with conventional designs. This saves valuable protein-rich leaves. Also saves time because you don't have to change from field to road position for transport.

Other outstanding features are:

- Low-profile baler design provides excellent visibility to the rear of the baler.
- Low-profile pickup... reduces crop lifting height, saving nutritious leaves.
- Hay goes straight into the unique prepacker chamber... regardless of windrow size.. for uniform flake and bale density.

Come in soon for the rest of the story!
