THE PURAFIRE

Our name says it all

The PuraFire heater provides a consistent, clean-burning and fuel-efficient source of warmth for all types of poultry and swine houses. With near 100% efficiency (CO emissions of 5 parts per million), the thermostatically operated PuraFire uses less energy to yield greater BTUs for your money. Choose from two PuraFire models: the C80M - variable output (40,000 or 80,000 BTUH) and the C225-225,000 BTUH unit. Each is LP or natural gas compatible and can be mounted inside or outside your confinement house.

Efficient, powerful and versatile agricultural heaters yield greater BTU's for your money.

Schaefer Barn Kooler®

The Barn Kooler® System incorporates a series of fans and controls into an integrated system that is used for both high velocity air circulation for cooling during the Summer and gentle, draft-free air movement during the Winter months. By utilizing thermostically controlled speed modulators, the speed of the circulating air is constantly adjusted to the temperature. As the temperatures in the building rise and fall, so does the volume of air being circulated.

CREEP PAD

WE MAKE YOUR WORK CLEANER, FASTER, AND HEALTHIER

PIGS STAY WARM, DRY AND COMFORTABLE ON THIS BLACK RUBBER CREEP MAT. IT ABSORBS RADIANT HEAT WHILE BLOCKING DRAFTS THROUGH FLOORS AND PROVIDES INSULATION.
