Looking for a better combine?

Look to Massey Ferguson first.

Ever since Massey Ferguson introduced the very first self-propelled combine, they've been the preferred choice of some of the world's most demanding customers.

It's a legacy of which we're extremely proud. And it's an obligation we take very seriously. The new MF 8450 and 8460 combines are a proud addition to this Massey Ferguson tradition for quality, performance and reliability.

Plus they offer exciting new features that demonstrate the continuing Massey Ferguson commitment to providing you with the best value in combines.

HYDRA-SPREAD

HYDRAULIC PUSH-OFF MANURE SPREADER

Single or two beater designs. Aggressive, high-speed beaters - with up to 15 paddles per beater - deliver a fine uniform spread. Replaceable bolted paddles on main beater

Optional slurry pan prevents spills. Controls sloppy or fine materials for even finer more uniform spreading

Simple, dependable power train. Every shaft (even the upper beater) is splined for efficient power transmission and long life

Truck-type or flotation tires to suit your needs

Snug-fitting end gate controls sloppy or granular manure

Optional wood rails - increase capacity and protect the box.

Clean design. No obstructions to hold manure.

Strong, all-welded frame with heavy structural tubes. All structural members are high-strength steel

Polyethylene sides and bottom containing 90% re-cycled material. Guaranteed for the life of the spreader

Precision metering valve for infinitely variable unloading from 0 - 8 tpm

Fully shielded PTO with overload protection

Hydraulic cylinders are installed above the floor. Always accessible - always easy to clean and service
