**CONSIDER THE MANY CONCRETE ADVANTAGES!
"A GOOD JULY RAIN GROWS A LOT OF GRAIN!"
With The Prospect Of A Good Corn Crop, It's Time For
Many Producers To Make Decisions Concerning Storage.**

16'x68'
about 10,000 bu. cap.
Shelled Corn
Poured Concrete
No Used Silos!
No Rebuilt Silos!
No Preowned Silos!!

In order to avoid hauling and drying costs, let us build a corn storage unit to preserve your valuable grain at 20%-30% moisture.

To keep your stored corn bright and yellow, you must protect it from oxygen and heat. Our 6" thick concrete walls reflect 38% of light beams, resulting in 780 times more heat-resisting ability than steel, and 25 times more insulating power than steel.

Our 6" thick walls have a very low leak potential compared to pre-fab silos of any kind, and a very low maintenance requirement.

BEFORE SPENDING A LOT OF MONEY FOR ENERGY TO DRY YOUR CORN, YOU WILL DO WELL TO CONSIDER THE MANY ADVANTAGES OF OUR Poured CONCRETE SILOS...

To unload your corn, we can install the simple auger system, the Laidig 43 unloader, or the Flying Dutchman. Let's discuss the options, and what is best for your situation.
