CONSIDER THE MANY CONCRETE ADVANTAGES!

"A GOOD JULY RAIN GROWS A LOT OF GRAIN!"

With The Prospect Of A Good Corn Crop, It's Time For Many Producers To Make Decisions Concerning Storage.

16'x68'
 about 10,000 bu. cap.
 Shelled Corn
 Poured Concrete
 No Used Silos!
 No Rebuilt Silos!
 No Preowned Silos!!

In order to avoid hauling and drying costs, let us build a corn storage unit to preserve your valuable grain at 20%-30% moisture.

To keep your stored corn bright and yellow, you must protect it from oxygen and heat. Our 6" thick concrete walls reflect 38% of light beams, resulting in 780 times more heat-resisting ability than steel, and 25 times more insulating power than steel.

Our 6" thick walls have a very low leak potential compared to pre-fab silos of any kind, and a very low maintenance requirement.

BEFORE SPENDING A LOT OF MONEY FOR ENERGY TO DRY YOUR CORN, YOU WILL DO WELL TO CONSIDER THE MANY ADVANTAGES OF OUR POURED CONCRETE SILOS...

To unload your corn, we can install the simple auger system, the Laidig 43 unloader, or the Flying Dutchman. Let's discuss the options, and what is best for your situation.

THE VAN DALE

ADVANTAGE

SHALLOW TILLAGE APPLICATOR

Van Dale's newest generation of liquid manure applicators is based on a simple, yet superior design. The Shallow Tillage Applicator consists of a double row of nine heavy duty cultivator shanks, evenly spaced, to provide maximum mixing action of top soil and liquid manure. All shanks are equipped with 9" sweeps to attack the soil and give consistent application and excellent soil agitation across a 12' width. The result is more manure nutrients available to plant roots because incorporation is done between 3" to 6" deep—ideal for crop utilization.

AN EFFECTIVE METHOD OF MAXIMIZING THE FERTILIZER VALUE OF LIQUID MANURE

Smooth Moves

SURFACE DRIVE SILO UNLOADERS

Smart farmers look to Van Dale for all the right moves when it comes to surface drive technology. Even frozen and hard packed silage and haylage are no match for Van Dale's Magnum and SD 2000. Now Van Dale offers even greater efficiency with its DURAGLIDE® Impeller available on the SD 2000. The Duraglide lessens gummy buildups, uses less power and provides faster and more reliable delivery.

Make a move in the right direction to Van Dale. Leaders of the pack since 1950!
