New in 1994

*You may pay less for some dairy farm equipment... but it can cost you more!*

*Equipment cost is not the only cost of cooling milk.*

In the long run, total operating costs of a Mueller milk-cooling system are generally substantially less than those of "bargain-brand" milk-cooling equipment.

| Example  | Mueller  | Competition |
|--|----------|-------------|
| Cost of equipment  | \$41,000 | \$28,000    |
| Cost of electricity @ .08/kWh for 12,000 lbs milk/day for 10 years | \$17,550 | \$22,850    |
| Total operating cost for ten years                                 | \$58,550 | \$50,850    |
| Savings  | \$7,700  |             |

Contact your Mueller distributor for further comparisons.
