

Thanks and Congratulations To  
**DAVID & NANCY STEELE**  
 Lewistown, PA

For Choosing Farmer Boy Ag For Their 23,000 Turkey Facility,  
 2-50'x440' Grow-Out Facilities and 44'x500' Starter Facility

Inside Turkey Facility

**NEW & LATEST IDEAS  
 IN TURKEY BUILDING  
 & EQUIPMENT**

**TURKEY PAN FEEDING SYSTEMS**

**SIMPLY THE LEADER**

Cumberland continues being the leader in the manufacturing of poultry equipment by introducing a turkey feeding system for every application. Cumberland's Turkey Feeders have revolutionary features which make them both profitable and easy to maintain for the end customer. Cumberland Feeders deliver feed economically, efficiently, and dependably with savings for the grower. The Cumberland Turkey Pan Feeding System offers a poult turkey pan for young turkeys and two models of adult turkey pans, designed to withstand the rugged treatment of adult turkeys through grow-out.

**NEW PLASTIC PAN**

Easier to clean... non-corrosive... lighter... Cumberland's plastic pan for both STF and RTF Adult Pan Feeders features improved structural engineering with stronger support gussets, a more durable and effective "hanger" for cleaning and a unique set of two feed-saving "catch walls" that significantly reduce raking and billout.

**GRILLESS PAN FEEDER**

Growers who prefer a shallower pan for poults appreciate the classic Cumberland grilleless pan feeder. Its feed saver lip prevents waste from raking and billout, while the wide center cone (with its simple and easy feed level adjustment) keeps birds out of the pan and guarantees a more efficient "first in, first out" utilization of feed. It can be mounted on the line as stationary or free-swinging, depending on your preference.

**FEED BINS**

**SCREW DRIVE CURTAIN COMMANDER™**

Screw Drive Automated Ventilation Curtain Controller by design is unsurpassed for durability and simplicity of operation.

• Reversible brake drives available in 15 and 60 RPM models • 3,000 lb. lift capacity (contact factory for restrictions).

**PURA-FIRE HEATER**

Choose From 2 Models

- C80M - variable output (40,000 or 80,000 BTUH)
- C225 - 225,000 BTUH unit. Each is LP or natural gas compatible and can be mounted inside or outside

your confinement house. Unique "bent flame" design increases flame's surface area and heat chamber efficiency. More warm air is drawn across the fan and blown out side vent
