SUNFLOWER

COULTER RIPPER

Conservation Tillage Equipment Built **SUNFLOWER Tough!**

Sunflower's Coulters Ripper is for today's conservation minded farmer demanding deep tillage with minimal residue disturbance. These durable machines feature adjustable front mounted coulters on 7 1/2" centers. The coulters blades have an added advantage of slicing hard ground to keep clod size to a minimum. The V-bar ripper design gives added trash clearance and pulls smoother than straight-bar rippers. These coulters rippers are built Sunflower tough and no ballast is added to the frame increasing the structural strength. Check out Sunflower's latest edition to its growing family of quality tillage equipment at a farm show or dealer near you.

Adjustable Coulters Gangs: The 4010/4110 both feature adjustable coulters gangs that can be raised completely in clean ground. Ratchet Jack Adjustment is standard equipment. Optional Hydraulic Gang Adjustment makes on the go changes or raising the coulters completely out of the way an easy task from the tractor seat.

COULTERS CHISEL

8'9" to 18'9" Widths Available!

CHECK OUT THIS SUPERIOR NEW PRODUCT FROM SUNFLOWER!

- New extended frame length for better trash clearance
- Auto-reset trip
- Heavy-duty 4"x6"x9/16" mainframe construction.
- Hydraulically controlled coulters gangs (optional) can be adjusted on the go or raised completely in clean soils.

Four inch twisted shovels provide maximum residue incorporation. Optional 2" reversible shovels team with hydraulically-adjustable coulters to give maximum residue cover while "perforating" plow pan to encourage water retention.

Pickers & Rakes NOW!

Fall Is The Time To Prepare The Ground For Spring Planting Before The Winter Freeze Gets Here!

We Have 2 Models 6000 Rock Pickers Ready To Work 1 Hyd. and 1 PTO Unit

Grated Hopper Bottom

We use spring steel straps in the hopper instead of using milder steel. The hopper is engineered to bounce back in shape.

Hydraulic Drive

The most popular drive on rock pickers is hydraulic which is standard on the 6000. We have incorporated a relief valve to take away the shock when disengaging the drive.

Flotation Tires

The 16.5Lx16.1 flotation tires are standard equipment and are a must to reduce soil compaction.

Reel Assembly

We are using the same reel as the proven Super Picker 6800. The three paddle reel has a large diameter, hard surfaced teeth and heavy duty paddles.

Swing Pole

The manual swing pole is easy to maneuver in both working or transport position.

Solid Shaft Grill Tines with Replaceable Grill Tips

This modern grill is easier to maintain, has longer life giving you less down time. The unique grill provides five feet of clean sifting and virtually jamless performance.

may be all the picker you'll need!
