

Metzler Named Outstanding Producer

MOUNT JOY, (Lancaster Co.) — George H. Metzler, has been named the 1994 Outstanding Polled Hereford Breeder by the Pennsylvania Polled Hereford Association. He was honored at the 72nd National Polled Hereford Convention, Nov. 2, in Kansas City, Mo.

Winners of the award were recognized for their farm/ranch management, their support of state and national Polled Hereford and cattlemen's activities, community involvement, and long-time contributions to the Polled Hereford breed.

Metzler's Salunga Acres maintains 120 Polled Hereford cows on some 300 acres. He also is a shipper, dealer, and broker of potatoes.

He is a member of the American Polled Hereford Association, Pennsylvania Cattlemen's Association,

is a director of the Pennsylvania Polled Hereford Association, having hosted its field day, and is a member of the Lancaster County Farmers Association. He has participated in the state's approved bull test program and is active on his breed's performance testing program, Guide Lines. His weaning weights in 1993 averaged 763 lb. on bulls and 630 lb. on heifers.

Salunga Acres has exhibited cattle in Pennsylvania and surrounding states, and has been named premier breeder and premier exhibitor simultaneously three times in the 1990s at the Pennsylvania State Farm Show.

Metzler's wife Dorothy is active in Poll-ettes as well as the state association.

Turn Your Wastes Into Resource

COLLEGEVILLE (Montgomery Co.) — A field demonstration of the composting process will take place at Heyser Landscaping, Inc. in Norristown on Tuesday, Nov. 29, from 10 a.m. to noon.

The event, sponsored by the Recycling Education Program, will showcase an innovative compost screener which can be fitted to a front-end loader; farmers, landscapers, and other composters with loaders might find a variety of uses for this low-cost screener.

The demonstration will also feature hands-on training about compost production by Sally Pick,

director of the Recycling Education Program, Jon Nilsson of East Coast Compost, and George Leidig of Atrusa Compost Consulting.

To guarantee the minimum enrollment needed for the screener demonstration, participants should preregister by Tuesday, Nov. 22. To preregister, send \$5 per participant payable to "Montgomery County Cooperative Extension," Recycling Education Program, 1015 Bridge Road, Suite H, Collegeville, PA 19426-1179. Walk-ins are welcome the day of the program.

Heyser Landscaping is located in Norristown at 400 N. Park Avenue (also called Route 363 & Valley Forge Road to the north) between Germantown Pike and Ridge Pike. From the Pennsylvania Turnpike 276, take exit 25 for Norristown. Ask the toll taker for directions to Germantown Pike west and follow Germantown Pike west 6 miles. Turn left onto N. Park Avenue, also called Route 363, and look for Heyser's about a half mile down on the left.

For additional information, call the Recycling Education Program at (610) 454-1245.

make it Milk

When minutes count, count on the MF 3075.

Don't get me wrong. We sure need the rain. But I've got to get these bales in first. In 20 minutes this field will be a lake. Thanks to this new Massey Ferguson 3075, I just might make it.

The MF 3075's unique 86 hp Quadrant combustion Perkins engine delivers more torque on less fuel than any conventional diesel engine. Plus it's smoother and quieter.

Wow! Listen to that thunder. It's getting close.

MF's exclusive Dynashift transmission combines the economy of a manual shuttle shift with the convenience of a 4-speed powershift.

Shuttle to reverse. Powershift down. Shuttle forward. Powershift up. I'd never make it with any other transmission.

Economy PTO. Electronic Linkage Control. Autotronics. Strong parts and service support. High resale value. See it all today only at your Massey Ferguson dealer.

Made it! That's the last one. OK rain. I'm just going to sit here in the cab, listen to the stereo, and enjoy it.

Massey Ferguson is a wholly owned subsidiary of AGCO Corporation, Inc., U.S.A.
