**THE PURAFIRE**

Our name says it all

The PuraFire heater provides a consistent, clean-burning and fuel-efficient source of warmth for all types of poultry and swine houses. With near 100% efficiency (CO emissions of 5 parts per million), the thermostatically operated PuraFire uses less energy to yield greater BTUs for your money. Choose from two PuraFire models the C80M - variable output (40,000 or 80,000 BTUH) and the C225-225,000 BTUH unit. Each is LP or natural gas compatible and can be mounted inside or outside your confinement house.

Efficient, powerful and versatile agricultural heaters yield greater BTU's for your money

The Nitrogen level of the pit waste will be enhanced by 300% with **PIT-BOSS™**

Pit Additive To Reduce Odor And Pit Solids

**FEED BINS**

We assemble, deliver & set-up bins on your farm.

**Ground controlled fill caps**

Opening and closing of the fill cap is made easy by our spring loaded, Auto-Lok ground control.

Offered as a standard tank feature, this factory assembled control has a single chain to operate the entire opening, closing, and latching process. In the open position, the lid lays parallel to the ground to insure ease of filling the tank, along with eliminating the possibility of damage from the fill auger. In the closed position, the lid is automatically and securely locked down by the gravity assisted, positive latching mechanism.

Models Available: Your Choice Of 6, 7, 9, 12 and 15 Ft. All Galvanized Hopper-Bottom Bins

An alternative to this package includes a manual hold-down latch and a sealing gasket for use with a pneumatic fill system.
