KELDERMAN AIR RIDE

SMOOTH SMOOTH

Adding a Kelderman Air Ride Conversion system to your present suspension will result in a two stage suspension system. This is not to be confused with adding an Air bag mounted above the axle. Allows adding extra spring leaves to increase load rating and still maintain Air-Ride comfort.

The bolt on basic package utilizes an air stem mounted in a convenient location to add or remove air from the system

Optional 12 volt compressor allows changing air pressure setting on the go. Currently available for front and rear suspension in Dodge Series 250 & 350 trucks. Available soon for Dodge Dakota models.

Also available for some Ford, Chevy and GMC truck models. Special orders available for most motor homes. This option will smooth out the ride on those rough-road fishing/camping, trips.

3"x8" HYDRAULIC CYLINDER
• 3" Tie Rod • 12" Shaft

NO-TILL SOLUTIONS.

PEOPLE • PRODUCT • PERFORMANCE

move only surface residue without moving the soil

The Yetter Residue Manager removes only the residue without digging into the soil. Its adjustable 13 steel wheels with 16 fingers easily push heavy residue away from in front of the planter. This results in a more uniform planting depth and improved seed trench closing for better emergence and quicker stands.

Make compliance profitable. See a Yetter dealer today your single source for conservation tillage equipment.
