Northeast Chicken Parts

Wednesday, Dec. 14, 1994

Trucklot buying activity was tapering off but was still about moderate. Offerings were increasing in their availability on some items while others remained in an irregular position. Dealers remained cautious and were selective in their limited purchases. The market tone was generally steady.

Delmarva Broiler/Fryer Market

Wednesday, Dec. 14, 1994

Movement of ready-to-cook whole birds was tapering, but generally remained sufficient to keep current offerings balanced to closely cleared. Live supplies were moderate; weights were desirable to heavy. Processing schedules were curtailed again, but remained very heavy in total. Less than trucklot asking prices were unchanged at 50 to 61 cents. Trade sentiment was fully steady. In the parts complex, bone-in breasts were well cleared to short. Wings were only adequate at best. Other items were generally noted as adequate for a lighter buying interest.

"This machine will pay for itself in a year" —Tom Krall

Tom Krall, a dairy farmer in Lebanon County, PA, installed a hammer mill from Automatic Farm Systems last spring. He feels it's been a very wise move financially.

"I had all my feed delivered, other than silage. Now I'll buy corn and barley cheaper, at harvest, and save on hauling and grinding. My initial cost, operating cost, and maintenance cost are all low. I expect this machine will pay for itself in a year."

"It's a pretty handy machine. It's all automatic, so it doesn't create any extra work. And it's not dusty like a roller mill because it's all enclosed."

Give us a call to learn how an AFS hammer mill will work on your dairy operation.
