"Keep Your Livestock Warm - Cold Weather Is Just Around The Corner"

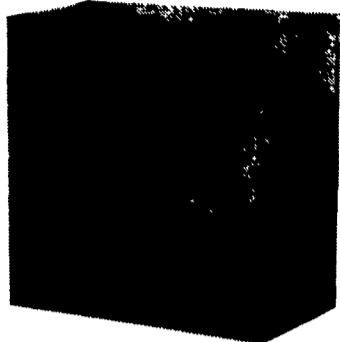

Pur@Fire

The "matchless" heater

Purfire's fast-acting, 24-volt electronic ignition energizes in just four seconds. This eliminates unpredictable pilot light flames, as well as the inconvenience of having to clean pilots or restart them with a match. Plus, a tough porcelain casing protects the igniter from damage and excessive heat exposure.

Well built, well protected

Purfire heaters are constructed of tough, rust-resistant galvanized steel for long life and durability. The motor assembly, blower, gas valve, control panel and other components are protected from moisture, dirt and dust. Swinging doors on each side give easy access to all working parts, making replacement and field service a breeze.

Purfire's fuel-saving "hot surface" igniter is protected by a porcelain casing for long life.

Quality manufacturing, pride in craftsmanship and dependable factory support are GSI trademarks.

Purfire is 100% high-pressure washable. See operation manual for COMPLETE cleaning instructions

KANE'S

TRIANGLE HEAT MAT
This product is a preheated electrically heated mat to provide a warm bed for baby pigs to help increase number of pigs per litter. Mats designed for all types of farrowings.

- Vinyl-Coated Steel Front Guard

AAA NEVER-RUST AIR FOIL SHUTTERS NO RUST, NO CORROSION
AVAILABLE IN BACK-DRAFT MODEL

FEED BINS A Division of GSI

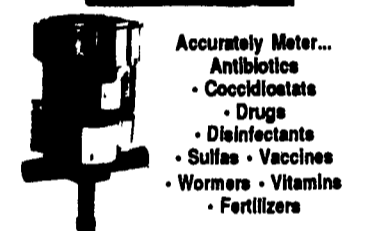

We assemble, deliver & set-up bins on your farm.

Ground controlled fill caps
Opening and closing of the fill cap is made easy by our spring loaded, Auto-Lok ground control. Offered as a standard tank feature, this factory assembled control has a single chain to operate the entire opening, closing, and latching process. In the open position, the lid lays parallel to the ground to insure ease of filling the tank, along with eliminating the possibility of damage from the fill auger. In the closed position, the lid is automatically and securely locked down by the gravity assisted, positive latching mechanism.

Models Available: Your Choice Of 6, 7, 9, 12 and 15 Ft. All Galvanized Hopper-Bottom Bins

An alternative to this package includes a manual hold-down latch and a sealing gasket for use with a pneumatic fill system

HEAT LAMPS

TANDEM PRODUCTS, INC. LIVESTOCK EQUIPMENT

Tenderfoot/NS

For Small Animals Up To 100 Lbs.
Tenderfoot/NS (Nursery) is specifically designed for use in standard nurseries and is accommodates pigs up to 100 lbs.
Tenderfoot/NS is also used for many other small animal applications such as zoos, dog kennels, etc.
A Better Warmer Bedding-Type Environment
When installed in the outer edge or creep area of a farrowing cage, Tenderfoot/NS will greet your newborn piglets with a soft warm bedding type environment. Those painful and costly bruises, abrasions and other disconcerting problems are greatly reduced. Tenderfoot/NS's unique expanded metal has hole openings that measure 1/4" x 1/4".
