WELDED FINISHING FEEDER

- Features:**
- 304 Stainless Steel construction • All welded construction
 - Easily adjustable and multi-movement agitator gate
 - All exposed edges are hemmed for safety
 - Standard Single-Sided models available with 4, 5 and 6 holes, Standard Double-Sided models available with 8, 10 and 12 feed holes 7 hole and 14 hole sizes available (special order only)

4-Hole Double-Sided Finishing Feeder

SUNNE THERMOSTAT

Thermostat Has A Sealed Molded Plastic Case With All Exposed Metal Parts Of Stainless Steel, Intended For Applications That Need A Rugged Weatherproof Type Control Suitable For Either Heating Control Or Cooling Control.

Schaefer Barn Kooler®

The Barn Kooler® System incorporates a series of fans and controls into an integrated system that is used for both high velocity air circulation for cooling during the Summer and gentle, draft-free air movement during the Winter months. By utilizing thermostatically controlled speed modulators, the speed of the circulating air is constantly adjusted to the temperature. As the temperatures in the building rise and fall, so does the volume of air being circulated.

Sizes 20" - 24" - 36"

Sensaphone™ 1100

Advanced Desktop Monitoring System

Environmental/Process monitoring over telephone lines with full programming capabilities

The versatile Model 1100 is designed for programming flexibility. Variable power failure recognition and listen in time with alarm, double security code access, remote sensing and other programming features.

Monitors power, temperature and other important environmental conditions to protect computers, equipment and processes. Automatically contacts you at up to 4 locations if unsafe conditions occur.

All as you to contact your system using any telephone to receive status reports and listen in to on site sounds.

Helps you detect problems before they turn into disasters.

Now you can protect your equipment and processes even when you can't be there. The Sensaphone 1100 monitors your computer rooms, equipment centers, offices, or any unattended facility to detect power failures, temperature extremes, intrusions, water intrusion sounds such as smoke and burglar alarms, and other conditions of your choice. Auxiliary temperature input lets you monitor isolated processes such as freezers and refrigerators, while the unit remains in a separate room.

Alerts you immediately if problems arise. The Sensaphone 1100 automatically contacts you by phone at up to four different phone numbers, to alert you of unsafe conditions. The system communicates in voice synthesized English and even lets you listen in to actual on site sounds.

CONDITIONS MONITORED

- Temperature
- Humidity
- Electricity
- Water Incursion
- Smoke
- Sound
- Windows & Doors

ENERGY EFFICIENT ENCLOSED MOTORS

- Heavy duty totally enclosed motors with sealed ball bearings are designed for continuous work load
- Available in her-sealed
- Built in thermal overload for low line voltage protection on all single phase motors

ALUMINUM SHUTTERS

- All Aluminum Construction
- Counter Balance Blades
- Nylon Bearing
- Stainless Steel Hinge Pins

- Low Air Resistance*
- Reduces Sticking In Dusty and Moist Conditions*

Use Fluorescent Lighting For Energy Savings

U-TUBE LAMP & SUPPLIES

...the biggest advantage of these lamps is the economic savings over the life of the bulb. Once the initial investment is paid back, which will be done in less than six months, the increased electrical economy make such bulbs the most logical way to light... MICHAEL J. DANE - PH.D Animal Science University of Connecticut

It's Time To Change Your Bulb® PAR HEAT LAMP

- Features/ Benefits**
- 175 W
 - 30% Wattage Reduction. Savings Of Over \$37 Per Lamp Over The Life Of The Lamp = Energy Saving
 - Long Life
 - Standard 125 to 250 Watt Available

PHILIPS

ENERGY EFFICIENCY AND LONGER LIFE

Earth Light Collection lamps pay for themselves many times over by providing significant savings on energy, maintenance and replacement. Compared to ordinary incandescent lamps, Earth Light Collection lamps save up to 76 percent on energy. The SL523, for example, will save \$67* over the life of each lamp. What's more, these energy savings are compounded by savings on maintenance and replacement. With an average life of 10,000 hours, Earth Light Collection lamps last up to 13 times longer than ordinary incandescent lamps.
