

# Quality Gehl In Stock At Binkley & Hurst Bros! "Let's Get Together Now"

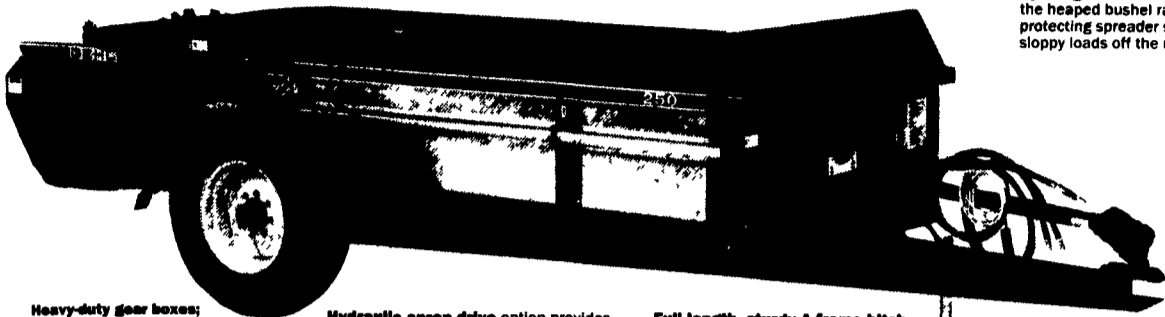

## GEHL Box Spreaders

Binkley & Hurst Bros. Has A Quality Gehl Spreader In Stock And Ready For Use Now At Economical Pricing!

Low profile design means easy loading by skid loader, front end loader or barn cleaner

Durable Galvanized steel sides are corrosion resistant for long life. One-piece seamless construction won't catch material or leak.

Splashguards and side rails increase the heaped bushel rating by 14% while protecting spreader sides and keeping sloppy loads off the roads.

Heavy-duty gear boxes; one a 90 degree beater drive, the other a two-speed worm box with bronze gear and steel worm, provide efficient power transmission, smoother operation and long life. They're protected by a polyethylene shield that won't rust or dent.

Hydraulic apron drive option provides infinite unloading speeds to match any load, ground speed or application rate requirements. It's available on the four largest models. Conveyor slats are made from 1/4" high-strength rail-steel.

Full length, sturdy A-frame hitch (7-gauge steel on MS135/175/250 and 3/16" steel on MS325/425) ties directly to the axle for extra strength and durability. Because the load is carried and not pulled, the weight of the load and its associated stress is more evenly distributed across a broader base.

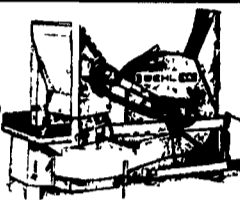

Constant velocity pto for continuous, smooth, chatter-free power transfer when spreading on turns and reduced stress on the entire drive line.

Conveniently located swing-away jack is mounted inside the A-frame for protection from tractor tires during tight turns.

**3725**  
35 HP Gas 950 Lb. SAE Operating Capacity  
In Stock

- Model 1540 540 PTO Economy Priced

Investing today in the future of agriculture

With Gehl's variable chamber round bales

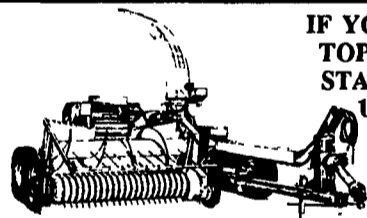

**Model 1470 In Stock!**

## Most Mix-All owners will never buy another.

In fact, you'll probably have a hard time convincing Gehl Mix-All owners to even look at anything else. And why should they? The Mix-All's big 21-inch wide hammermill features 66 reversible thin hammers that cut, rather than pound the feed to deliver a more consistent grind and ensure uniform mixing for a better feed conversion rate. Gehl's self-contained hydraulic system is designed-in, not added-on. It provides the precision of infinitely variable in-feed attachment control to match tractor power for greater grinding capacity. Plus you get fast, smooth, trouble-free unloading with greater reliability. And a wide variety of options and accessories let you customize your Mix-All to fit any operation.

**Model MX125 And Model MX170 In Stock For A Good Year End Towaway Deal!**

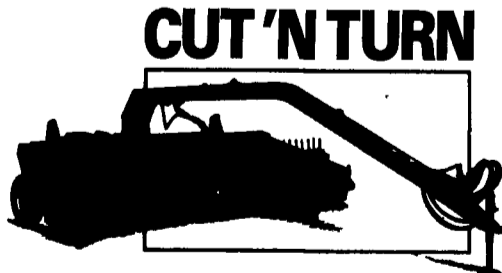

**IF YOU CHOP HAYLAGE AND WANT TOP PERFORMANCE FOR A GOOD START THIS SPRING GET A GEHL 1065 SUPER CHOPPER FROM BINKLEY & HURST NOW! CHOP IT DOWN**
