"I really feel it's helped production"
—David Bomberger

David Bomberger, a dairy farmer in Lebanon, PA, installed a hammer mill from Automatic Farm System last winter. Already he sees a big difference from the roller mill he had before.

"This mill does a much better job of cutting the corn -- now we can get it fine enough. We're feeding the same amount of corn, but the cows are utilizing it better. You see less grain in the manure. And I really feel it's helped production."

Give us a call to learn how an AFS hammer mill will work on your dairy operation, with low initial cost and low maintenance.
