

# Quality Gehl In Stock At Binkley & Hurst Bros. "Let's Get Together Now"

## GEHL Box Spreaders

### Binkley & Hurst Bros. Has A Quality Gehl Spreader In Stock And Ready For Use Now At Economical Pricing!

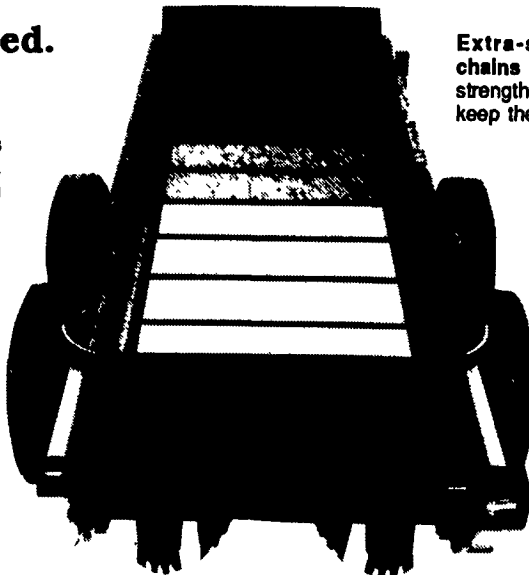

Even when it's empty... it's loaded.

Low profile design means easy loading by skid loader, front end loader or barn cleaner

Double Galvanized steel sides are corrosion resistant for long life. One-piece seamless construction won't catch material or leak.

Gehl-Tuff Flooring prevents the apron from freezing to the floor, allowing manure to slide out with little resistance. Less apron pull means less wear and tear on drives and apron chains. One piece construction won't flex under heavy loads.

Optional hydraulic endgate rests in front of the beater paddles to secure sloppy loads and keep heaped material out of the beater unit you're ready to spread. An available litter pan reduces spills in the yard or roadway while enhancing the spread distribution.

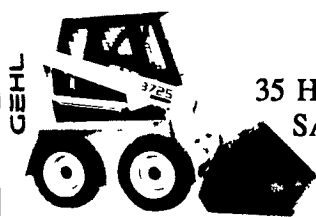

Extra-strong, T-bar apron chains with an average tensile strength of over 23,500 pounds keep the biggest loads moving.

Oscillating tandem wheels allow faster ground speeds while providing greater flotation. They're standard on the 325-bushel and 425-bushel models and optional on the 250-bushel model

Twelve extra wide one-piece beater paddles are symmetrically positioned for broad, uniform spreads. Paddles are fabricated from tough, 1/4" thick high strength steel. Bolt-on replacement tips are available to extend paddle life.

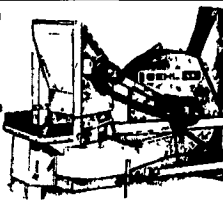

Constant velocity pto for continuous, smooth, chatter-free power transfer when spreading on turns and reduced stress on the entire drive line.

### Model 425 and 250 In Stock & Other Sizes Available

**3725**  
35 HP Gas 950 Lb. SAE Operating Capacity  
In Stock

In Stock!**

### Binkley & Hurst Bros. Has A Line Of Quality U-Type Gehl Scavenger Spreaders In Stock For Immediate Delivery

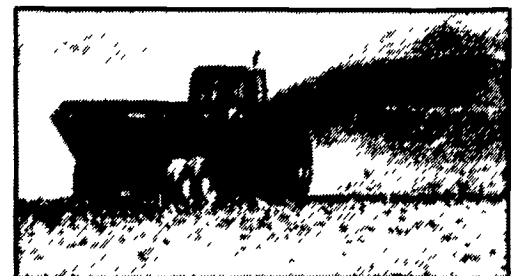

Quality New Gehl Hay Tools  
In Stock!

### Most Mix-All owners will never buy another.

In fact, you'd probably have a hard time convincing Gehl Mix-All owners to even look at anything else. And why should they? The Mix-All's big 21-inch wide hammermill features 66 reversible thin hammers that cut, rather than pound the feed to deliver a more consistent grind and ensure uniform mixing for a better feed conversion rate. Gehl's self-contained hydraulic system is designed-in, not added on. It provides the precision of infinitely variable in-feed attachment control to match tractor power for greater grinding capacity. Plus you get fast, smooth, trouble-free unloading with greater reliability. And a wide variety of options and attachments let you customize your Mix-All to fit any operation.

**Model MX125  
And Model MX170  
In Stock**

### MANURE SPREADERS

When it comes to hauling manure, Gehl has a spreader that will fit your operation.

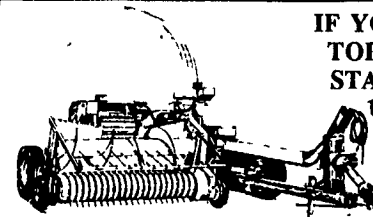

Box spreader? Gehl's got 'em with a full line of spreaders in just the right size for your needs, from 135 to 425 bushel capacities. And they're backed by one of the best warranties in the industry, 10 years on sides and floors.

How about a spreader that will handle "everything"? Gehl's Scavenger® II will take on any challenge you can give it. Liquid, semi-solid, pen packed, even frozen. The Gehl Scavenger® II will do the work of two spreaders for the price of one... all year 'round.

If you're in the market for a spreader, now's the time to see your Gehl Dealer. They'll pass your toughest acid test with flying colors.
