

OUR STANDARD TRACTORS AREN'T.

Kubota M-30-Series tractors range from 44-76 PTO horsepower. So they're big enough to do all kinds of chores around a farm. And they're loaded with standard features.

For example, wet disc brakes, hydraulic draft, position and combination implement control. Power steering and direct fuel-injection also come standard. You can choose a 2- or 4-wheel drive model.

It's easy to see why we say Kubota standard tractors aren't. They've got all the features you need to take on a big workload. In fact, the only thing small about 'em is the price.

Come in soon and take a look at our new standards.

WORKER B

Nothing works harder than our B7100 HSD tractor. From home use to commercial applications, this 16 HP tractor is just right for all kinds of jobs.

The B7100 HSD comes with a hydrostatic transmission that means there are no gears to shift. Press your toes on the pedal and you go forward. Put your heel down and you back up. Simple.

This four-wheel drive compact tractor is powered by a Kubota liquid-cooled diesel engine. Mid and rear PTO plus hydraulic three point hitch provide great implement selection to perform many chores.

So if you're looking for a hard worker, look no further than Kubota's worker B7100 HSD tractor.
