AIRSTREAMER ventilation systems

THE PURAFIRE

Our name says it all

The PuraFire heater provides a consistent, clean-burning and fuel-efficient source of warmth for all types of poultry and swine houses. With near 100% efficiency (CO emissions of 5 parts per million), the thermostatically operated PuraFire uses less energy to yield greater BTUs for your money. Choose from two PuraFire models: the C80M - variable output (40,000 or 80,000 BTUH) and the C225-225,000 BTUH unit. Each is LP or natural gas compatible and can be mounted inside or outside your confinement house.

Efficient, powerful and versatile agricultural heaters yield greater BTU's for your money.

Ground controlled fill caps

Opening and closing of the fill cap is made easy by our spring loaded, Auto-Lok ground control. Offered as a standard tank feature, this factory assembled control has a single chain to operate the entire opening, closing, and latching process. In the open position, the lid lays parallel to the ground to insure ease of filling the tank, along with eliminating the possibility of damage from the fill auger. In the closed position, the lid is automatically and securely locked down by the gravity assisted, positive latching mechanism.

An alternative to this package includes a manual hold-down latch and a sealing gasket for use with a pneumatic fill system

Models Available:

CREEP PAD

WE MAKE YOUR WORK CLEANER, - FASTER, AND HEALTHIER

PIGS STAY WARM DRY AND COMFORTABLE ON THIS BLACK RUBBER CREEP MAT. IT ABSORBS RADIANT HEAT WHILE BLOCKING DRAFTS THROUGH FLOORS AND PROVIDES INSULATION. ITS FLEXIBILITY PREVENTS DAMAGE WHEN KICKED BY THE SOW, WHILE TAPS LOCK IT UNDER THE CREEP DIVIDER. THE INEXPENSIVE MAT CLEANS EASILY, YET THE SOFT, RIBBED SURFACE PROVIDES EXCELLENT TRACTION FOR BABY PIGS.
