JAMESWAY DIRECT X PRESS SYSTEM

NEW BELT FEEDERS & CONVEYORS

Big Capacity Delivery... With All The Advantages Of Dependable, Efficient, Low Profile Direct Drive Design!

That's what farmers really appreciate about the new Jamesway family of Direct XPress Feeders and Conveyors. All models feature a dependable and efficient heavy duty industrial drive with enclosed oil bath and standard 1/2 or 3 HP C faced motors. Our direct drive design eliminates pulleys, jackshafts, sprockets, chains, V belts and shields. The low profile motor and drive can be mounted on either side for added installation versatility.

- The Direct XPress family includes:
- DXF 1400 Single or Divided Lot 14" Wide Belt Feeder 180 Maximum Length
- DXC 1400 14" Wide Belt Conveyor 180 Maximum Length
- DXC 1800 18" Wide Belt Conveyor 180 Maximum Length
- DXC 2400 24" Wide Belt Conveyor 124 Maximum Length

X Sides Are Standard

All Direct XPress System models feature heavy 16-gauge weather resistant galvanized steel sides in 2 1/2, 5 and 10' sections. We call them "X" sides because they are "X" tra' strong and will span 20' between supports. And they are built to last and will stay looking good "X" tra' long!

Do It Your Way!

Match your feeding layout and requirements with reversible elevating conveyors, inclines and declines without sacrificing capacity, speed and uniform delivery. All inclines and declines are infinitely adjustable up to 30 degrees elevation for textured belt and up to 15 degrees elevation for smooth belt.

Tough 1/8" thick polyester belt with PVC covering and dependable stainless steel industrial splice is a year round performer and fits in sub-zero weather. Choice of smooth or textured belt for conveyors in 14", 18" and 24" widths. Belt speed is 230 feet per minute.
