Quality, Dependability and Performance Are Three Great Reasons Why The TWISTER Family of Medium-Duty Cutters From SERVI-RHINO Is Mowing The Competition Down!

**TW60**  
The TW60 mows a full 5' swath and is available in 540 RPM and three-point lift. The TW60 requires only a 30 HP tractor (with adequate front weight) to save on operating costs. The tail-wheel beam of the TW60, 72, and 84 lift-type cutters are easily adjustable for different cutting heights.

**TW72**  
The TW72 mows a 6' swath of material and can be operated on a tractor as small as 40 HP (with adequate front weight). The floating top linkage of the "A" Frame allows the TW cutters to follow the contour of the ground in rough conditions without damage to the hitch.

**If It's Snow Removal Or Heavy Duty Excavating, You Need A Rhino Blade From Binkley & Hurst Bros. Now!**

The LR Blade has been setting the standard in medium-duty blades for over 20 years. The LR is ideal for road maintenance, soil leveling, ditching and terracing work, or feedlot cleanup on tractors. Durability and ruggedness are built into every LR with features including a 2" solid steel kingpin and a 5/16" thick moldboard. Versatility is provided by the LR's three basic mechanical adjustments: moldboard tilt, pivot, and mainframe swing which add up to a total of 22 non-wrench adjustments.
