**Summary of 1994 Pa. Graded Feeder Cattle Sales**  
Report Supplied By PDA

There were eight special state graded Feeder Cattle sales held in Pennsylvania this year. There was a total of 3,182 head graded this year.

Cattle were graded for frame size and muscle thickness using USDA feeder cattle grading standards. Graded cattle were grouped into uniform lots as to grade, breed, weight and sex. Personnel from the Pennsylvania Department of Agriculture, Livestock Division, graded the cattle.

The special sales were sponsored either by the livestock market or the local Cattleman's Association.

Below are the results of the individuals sales — all sales per hundredweight:

Eighty-four Auction Sales, Eighty-four, PA (Washington County) October 7, 1994 Total head 693

**Lancaster Crops Day Set**

LANCASTER (Lancaster Co.) — The 34th Annual Lancaster County Crops and Soils Day will be held on Tuesday, February 7, at the Lancaster County Farm and Home Center.

All interested persons are invited to attend.

The program will open at 8:30 a.m. with time for coffee and donuts and visiting the numerous exhibitors. This year's program will deal with topics associated with forage crop production, including Selection of Small Grain Varieties and Small Grain Crop Management by Dr. Elwood Hatley, Penn State Agronomy Department; Intensive Management of Pastures by Dr. Steve Ford, Penn State Agricultural Economics Department; Alternative Field Crops for Pennsylvania and Buying vs. Renting Land by Dr. Jayson Harper, Penn State Agri-

cultural Economics Department; and Controlling Weeds in Forage and Grain Crops a video by Dr. William Curran, Penn State Agronomy Department.

At noon a reduced-price lunch will be available followed by time to visit with Agribusiness representatives. After lunch, Kathy Baxter, director, Lancaster County FSA Office, will discuss the New Federal Crop Insurance program. Soybean Silage and Small Grain Silage will be discussed by Dr. Elwood Hatley. Dr. Steve Ford will expand his morning discussion on intensive management of pastures. The program will conclude with a discussion of the Worker Protection Standard Requirements for Pesticide Users by Bob Anderson, extension agent. Portions of the program will qualify for pesticide credit update training.

**Winter Conference Set**

LEWISBURY (Northumberland Co.) — The Northumberland County Conservation District announces the annual winter agricultural conference for 1995 is set for Monday, Feb. 13.

The conference, cosponsored by the Northumberland County Conservation District and Penn State Cooperative Extension Service, will be held at the Otterbein United Methodist Church hall in Sunbury.

Topics planned to be discussed during the conference are manure application systems, weed control in field crops, Farm Bill updates, narrow row corn spacing to im-

prove yields, an update on the Chesapeake Bay program in Northumberland County, and integrated weed management.

Agricultural suppliers will be present and have displays around the room.

The conference is expected to run from 9 a.m. to 3 p.m. and will include a baked ham dinner. Ticket prices are \$5.50 which includes dinner, plus coffee, and donuts in the morning.

For more information or to make a reservation, call the conservation district office at (717) 988-4224.

**AMERICA'S ALFALFA MAKE A STAND...**

...with the introduction of **NEW +Z** alfalfa varieties.

New +Z varieties with high levels of seedling resistance produce powerful results for alfalfa growers including: thick and healthy stands, better winterhardiness, longer stand life, and higher yield potential.

**Total +Z The Persistent Multileaf**

This top-performing variety features very dark green color and high multileaf quality. It has scored in the top 10 in university yield trials. This variety features high resistance to all 5 major alfalfa diseases, +Z seedling resistance to Phytophthora and Aphanomyces, and better winterhardiness than other multileaf varieties. Fall dormancy rating: 3.4

Supply Very Limited. Sow 20 Lbs. per acre.

**Innovator +Z High stem protein, high digestibility**

This high-quality variety was NIRS selected for high stem protein and total protein. It outyielded 80 other Alfalfa varieties in university yield trials, and offers high digestibility to produce more milk and meat per day. It features high resistance to 4 major alfalfa diseases, +Z seedling resistance to Phytophthora and Aphanomyces, and excellent winter survival. Fall dormancy rating: 3.0

Supply Very Limited. Sow 20 Lbs. per acre.
