

## 600 Attend Binkley & Hurst Bros. Appreciation Day, Open House

LITITZ (Lancaster Co.) — About 600 people attended the annual Binkley & Hurst Bros. Inc. Customer Appreciation Day & Open House Tuesday at the company's Lititz dealership location.

On display were a variety of farming implements and equipment, such as manure spreaders, discs, rakes, etc., as well as other exhibits.

In addition, four speakers provided seminars during the event. Don Robinson, administrator with the Lancaster Conservation District, talked about what farmers can do to keep the public calm and understanding about farming practices, and what they can do to prevent governmental intrusions on the farm.

Carl Just, plant manager of the Myerstown plant of Gehl Co., gave a seminar on innovations in the handling of hay, forage and materials handling, while Dennis Hahn, a product specialist with Case IH, discussed what are considered "products of excellence."

Also giving a seminar was Pen-

sylvania State Police Cpl. Ralph E. Striebig who discussed various aspects of the law, concerning legal weights, farm truck licensing, underage drivers, equipment transportation widths, special hauling permits, and other farming travel considerations that carry legal restrictions.

Those who were unable to attend the seminars and open house can still benefit from the presentations, as they were videotaped.

Two tapes were required to tape the morning session and the afternoon session. The morning session tapes includes presentations by Robinson and Just.

Copies of the tapes are available at Binkley & Hurst for a nominal fee just to cover the cost of copying and the tape.

To get copies, stop at the company's dealership location, at 133 Rothsville Station Road, in Lititz, and ask about the tapes at the parts department.

For more information, call (717) 626-4705.

About 600 people attend the Binkley & Hurst Bros. Inc. annual customer appreciation day and open house, to look over new equipment and attend seminars on topics ranging from the state law concerning farming transportation to ways to what farmers can do to help create a better working relationship with neighbors and government.

**EXTRA**  
Granulated Starter Fertilizer

"THERE'S MORE TO IT THAN JUST NPK"

For over 47 years, farmers throughout the Mid-Atlantic Area from New York to Virginia have produced millions of dollars of crops using Lebanon Extra fertilizer.

Lebanon Extra is an ammoniated, homogenous, granular NPK fertilizer. With the increased emphasis on using less and precise applications of plant food, Lebanon Extra provides the nutrient sources that you can depend on, and not just NPK but also secondary and six micro-nutrients. The nutrient integrity of Lebanon Extra is superior to bulk blend fertilizer products. When using row applications or banding accurate amounts of plant food it can be important to use a safe, quality, uniform grade product. If you are using a blend with MAP compare the value of Lebanon Extra.

### LEBANON EXTRA PLANT FOOD

Ammoniated Granular Fertilizer  
Homogenous  
Secondary and Micros  
Uniform Analysis  
Low Chlorine for Sensitive Crops  
Safer to use in row applications  
Economical to use on all Crops  
Get the Starter Effect by staying 2x2  
Excellent for No-till Corn
