For fuel economy and better incorporation put a "Buster-Bar" on your chisel plow, disk, field cultivator or plow. The NEW design provides easy adjustment for working or transport positions. The 7/8" diameter teeth bust clods before they dry and harden. Mounted to wing section to fold with unit.

WE BUILD AUGERS... AND WE BUILD 'EM RIGHT.

Westfield grain augers are built right from the ground up. They're designed and engineered to be tough, durable and dependable — by people whose only business is augers. Westfield offers a choice of several electric gas or PTO drive styles (SD Model shown) in lengths from 26 to 71 feet and diameters of 6, 7, 8 and 10 inches.

Our new MK Series in 8, 10 and 13 inch models feature a simple PTO driven internal mechanical drive — powering both the main auger and intake swing hopper — plus a labour-saving hydraulic lift — to make light work of grain handling chores.

When you buy Westfield, you know you're getting the best auger your money can buy. See your Westfield dealer today for an auger built just right for you.
