Corn Growers Join Ethanol Coalition

ST. LOUIS, Mo. —

The National Corn Growers Association (NCGA) is pleased to announce with the 19 state Governors Ethanol Coalition (GEC) the formation of a new program to expand the use of ethanol powered E-85 vehicles. This joint venture is part of a larger effort including the United States Department of Energy (DoE), state corn grower organizations, state energy offices and members of the ethanol industry.

"The objective is to break the chicken-and-egg syndrome we have been caught in for a number of years," said Rod Gangwish, president of NCGA and a Shelton, Neb. farmer. "The problem is that fuel providers would not install refueling facilities until cars were available and auto manufacturers were reluctant to provide alternatively fueled vehicles until the refueling capabilities were available."

The endeavor is an effort by the two organizations to provide more than \$1 million in funding to help facilitate the development of a refueling infrastructure in several Midwest states. This infrastructure will be designed to service several hundred cars being produced by Ford Motor Company and distributed by the General Services Administration (GSA). In the first order, 125 cars will be placed in the Chicago area and 125 placed in St. Louis.

LIME

- Dump Truck Loads
- Spreaders Available

Rohrer's Quality Hi-Cal Damp Lime

88% CCE	Calcium Oxide 41%
ENP 67	Magnesium Oxide 6%
55%	passing 100 mesh
65%	passing 60 mesh
98%	passing 20 mesh

NOW ONLY \$5⁵⁰ Per Ton (Picked Up)
