TRAK STARS

Feed-Trak™ High-Capacity Belt Feeder

It's hard to imagine so much feeder at such a good price. Let your Starline Dealer show you why Feed-Trak is so efficient, dependable and quiet. New feeder features simple design, exclusive smooth-running track and trolley system and high-capacity STARglider™ V-Plow. This feeder is right on "trak"!

Cen-Trak™ Power Drive Unloader

Meet Cen-Trak! The new and better concept in single-cable unloaders. Simple, dependable power drive design eliminates the problems of other high-torque, center-drive machines. You get economy and faster, high-capacity unloading with fewer trips up the silo. Only from Starline!

Built to last, priced to sell.

JAMESWAY DIRECT X PRESS SYSTEM

NEW BELT FEEDERS & CONVEYORS

Big Capacity Delivery... With All The Advantages Of Dependable, Efficient, Low Profile Direct Drive Design!

That's what farmers really appreciate about the new Jamesway family of Direct XPress Feeders and Conveyors. All models feature a dependable and efficient heavy duty industrial drive with an enclosed oil bath and standard 1/2 or 3 HP C faced motors. Our direct drive design eliminates pulleys, jackshafts, sprockets, chains, V belts and shields. The low profile motor and drive can be mounted on either side for added installation versatility.

- The Direct XPress family includes:
- DXF 1400 Single or Divided Lot 14" Wide Belt Feeder 180 Maximum Length
 - DXC 1400 14" Wide Belt Conveyor 180 Maximum Length
 - DXC 1800 18" Wide Belt Conveyor 180 Maximum Length
 - DXC 2400 24" Wide Belt Conveyor 124 Maximum Length

"X" Sides Are Standard
All Direct XPress System models feature heavy 16-gauge weather resistant galvanized steel sides in 2-1/2' 5' and 10' sections. We call them "X" sides because they are "X" tra strong and will span 20' between supports. And they are built to last and will stay looking good "X" tra long!

Do It Your Way!
Match your feeding layout and requirements with reversible elevating conveyors, inclines and declines without sacrificing capacity, speed and uniform delivery. All inclines and declines are initially adjustable up to 30 degree elevation for textured belt and up to 15 degree elevation for smooth belt.

Tough 1/8" thick polyester belt with PVC covering and dependable stainless steel industrial splice is a year round performer and shines in sub-zero weather. Choice of smooth or textured belt for conveyors in 14", 18" and 24" widths. Belt speed is 230 feet per minute.
