6600 RIGID FRAME

Adapt to any planting practice...no-till, mulch-till or ridge-till...15", 20", 30" or 40" rows.

Yield-enhancing planting practices like 20" rows and others are on the horizon. That's why the 6600 Planter features the two-bar design. With it you'll have the flexibility for changing planting practices...now and in the future.

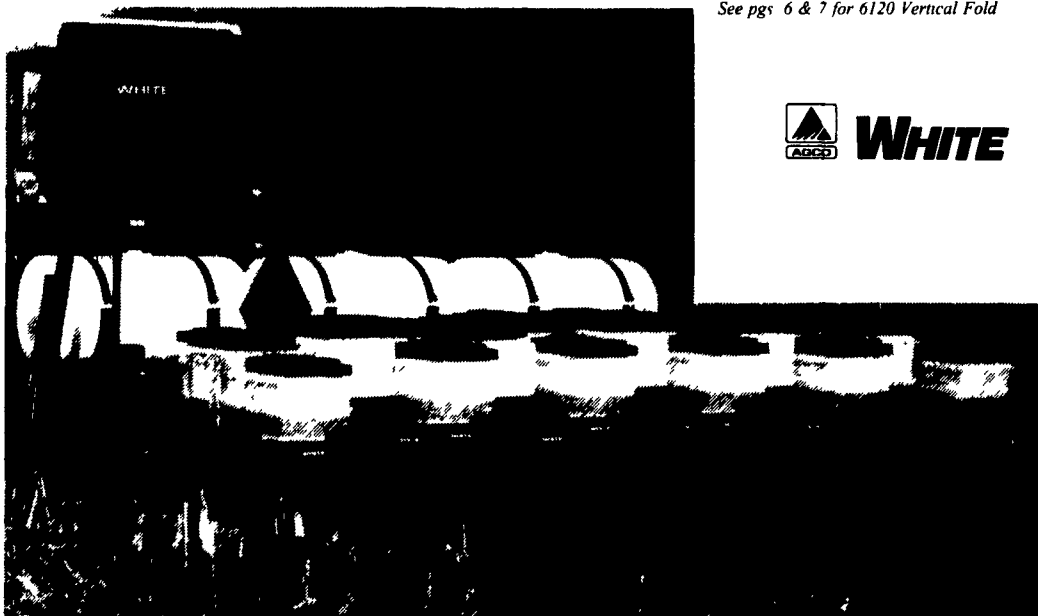

adapts to changing tillage practices, too. In soft conditions, the wide 9.5-15 tires keep the planter from sinking. In no-till, the two-bar design provides two 5" x 7" toolbars for adding an extra set of coulters and other attachments (There's also an optional 3" diamond bar for hanging fertilizer openers.) It has the strength and weight to penetrate the tough stuff. Optional weight brackets give you even more security.

meter. There are only two parts...brushes...to check and replace periodically.

6100 VERTICAL FOLD & RIGID FRAME

Reduce fieldwork and feed costs while maximizing yield with no-till.

If animal health takes first priority around your place, you can't afford to spend hours and hours making planter adjustments and checking population rates. You need a planter that's simple to set up and operate.
