Boots And Saddles 4-H Club
The first meeting of the Boots and Saddles 4-H club, for the

1995 project year, came to order on Friday, Feb. 10, at the Farm and Home Center.

This meeting was called to

order by President Nathan Stoltzfus at 7 p.m. About 30 members attended this organizational meeting.

They told about themselves and their horses. They shared their ideas and thoughts on 4-H. They were told about shows and fundraisers. They were given candy selling sheets and then instructed to get out and sell, sell, sell.

Then they voted on whom they wanted to hold the offices for this

year. Abby Just was voted president. Nathan Stoltzfus was elected as vice president; secretary, Melissa Meisky; treasurer, Kelly Sullivan; assistant treasurer, Victoria Stuart; and elected reporter was Emily Hill.

Then the 4-Her's watched a movie called "A Horse of Our Own." When the movie was over, refreshments were served.

Goat Club Meets
The Cumberland County 4-H Goat Club met March 1 at the home of Tim Zeigler. Eleven members were present.

The members welcomed Sandy Sargent, DVM from Farrell Veterinary Clinic. She talked on proper kidding techniques, kid feeding, and a vaccination program. She also gave a demonstration on tube feeding a kid.

Meat animals will be tagged and weighed on May 10 at Farrell Veterinary Clinic from 7 p.m.-7:30 p.m. The club purchased animal clippers and tattooing equipment for the members' use. Members also voted to begin meetings at 7 p.m. instead of 7:30 p.m.

The next meeting will be held April 5 at 7 p.m. at the home of Beth and Greg Garvin.

Those wishing to join the club or needing additional information should contact one of the leaders: Red Allen at (717) 776-5097 or Ron and Lois Zeigler at (717) 776-7583.

TOP 10 REASONS

WHY YOU SHOULD BUY A

TANCO BALE WRAPPER

TANCO

COMPETITION

1. Five (5) points of support on turntable: Four heavy duty rollers add stability and support to the perimeter of the turntable in addition to the main central shaft. This allows Tanco wrappers to safely wrap the heaviest silage bales on rough or uneven ground.

Competition uses one central shaft to support the entire turntable mechanism

2. Single solid belt on turntable: The single belt enables Tanco wrappers to effectively wrap misshapen or soggy bales providing a positive surface for bale rotation.

Competition uses either no belts between rollers, or multiple belts which can allow bales to sag and slip.

3. Adjustable extendable axle: On trailed models the extendable axle provides a wide, stable wheel base when loading bales. Eliminates the need for counter weights.

Competition must add counterweights or tandem axles as options to effectively handle silage bales.

TANCO

COMPETITION

4. Top rollers on turntable: Extra rollers provide security to keep bales in place when wrapping at high RPM's (25) or on uneven terrain.

Competition - None.

5. Unloading ramp on trailed models: The ramp allows bales to be unloaded gently. When a wrapped bale falls hard it can "burp." Once it "burps" the bale does not re-seal. The ramp gives a smooth transition between the ground and turntable.

Competition - optional drop mats or ramps available

6. Optional "High Rise" axle kit for soft ground conditions.

Compare!

7. Models available to fit every individual need, including machines to wrap big square bales. Tanco was first to build a large square bale wrapper, and continues to produce advancements in bale wrapping technology.

Limited product lines.

8. Positive bale positioning: While being wrapped, bales are rotated the exact distance required to obtain optimum coverage.

Competition uses continuous hydraulic advance. Bales can slip or over-rotate giving an uneven wrap.

9. Durability: Tanco's subframe is one of the heaviest of any machines available in North America. The low profile design keeps silage bales closer to the ground with a low center of gravity for stability. Tanco's features are the result of years of experience and input from hundreds of individual, and commercial users.

Competition - Compare!

10. Price: From a basic 3 point Model AW200, to the trailed Model AW400 with automatic cut & start, bale and batch counter, and tractor seat controls, Tanco prices are very competitive. Pay less for more features and durability than any other bale wrapper on the market.

SOYBEAN ROASTING ON YOUR FARM

FULL-FAT ROASTED SOYBEANS for Maximum Feeding Value

- High energy, by-pass protein and palatability
- Toxic enzymes and molds destroyed
- Peak performance with retained oil and lecithin
- Improved Total Digestible Nutrients
- Ultimate rich peanutty flavor and aroma
- Dried as roasted
- Roast own grown beans - Avoid trucking and docking
- Economical and efficient for lower feed costs
- Ready for use or storage
