Quality Gehl In Stock At Binkley & Hurst Bros. "Let's Get Together Now!"

**GEHL** Binkley & Hurst Bros. Has A Quality Gehl Spreader  
Box Spreaders In Stock And Ready For Use Now At Economical Pricing!

Even when it's empty... it's loaded.

Low profile design means easy loading by skid loader front end loader or barn cleaner

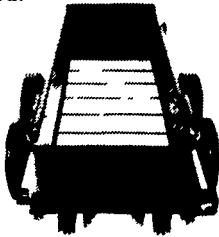

Gehl-Tuff Flooring prevents the apron from flexing to the floor allowing manure to slide out with little resistance. Less apron pull means less wear and tear on drives and apron chains. One piece construction won't flex under heavy loads.

Extra-strong, T-bar apron chains with an average tensile strength of over 23,500 pounds keep the biggest loads moving.

Double Galvanized steel sides are corrosion resistant for long life. One-piece seamless construction won't catch material or leak.

Optional hydraulic endgate rests in front of the beater paddles to secure sloppy loads and keep heaped material out of the beater unit you're ready to spread. An available later pan reduces spill in the yard or roadway while enhancing the spread distribution.

Oscillating tandem wheels allow faster ground speeds while providing greater flotation. They're standard on the 325 bushel and 425 bushel models and optional on the 250 bushel model.

Twelve extra wide one-piece beater paddles are symmetrically positioned for broad uniform spreads. Paddles are fabricated from tough 1/4" thick high strength steel. Bolt on replacement tips are available to extend paddle life.

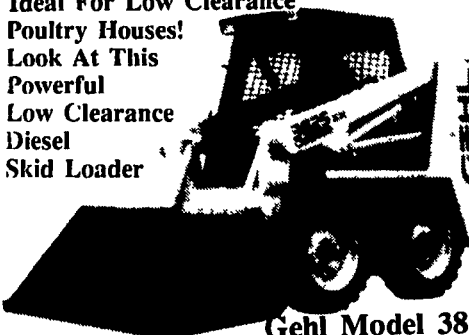

Constant velocity pte for continuous smooth chatter free power transfer when spreading on turns and reduced stress on the entire drive line.

Huge 425 Bushel Ready To Put To Work

Model 425 and 250 In Stock & Other Sizes Available

Ideal For Low Clearance Poultry Houses! Look At This Powerful Low Clearance Diesel Skid Loader

Gehl Model 3825

33.5 HP Diesel, Approx. Only 70" Cage Height. Self Leveling Loader, Block Heater, Foot Throttle and Hand Throttle. Compact Big Capacity See Binkley & Hurst Bros. Soon!

Most Mix-All owners will never buy another.

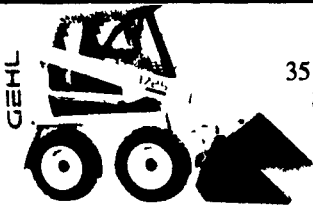

Model MX125 And Model MX170 In Stock

In fact, you'd probably have a hard time convincing Gehl Mix-All owners to even look at anything else. And why should they?

The Mix-All's big 21-inch wide hammermill features 66 reversible thin hammers that cut, rather than pound the feed to deliver a more consistent grind and ensure uniform mixing for a better feed conversion rate.

Gehl's self-contained hydraulic system is designed in, not added on. It provides the precision of infinitely variable in-feed attachment control to match tractor power for greater grinding capacity. Plus you get fast, smooth, trouble-free unloading with greater reliability.

And a wide variety of options and attachments lets you customize your Mix-All to fit any operation.
