- Auger system mounts on planter

## MECHANICAL TRANSPLANTER MODEL 1000

For The Grower That Demands The "VERY FINEST"

The High Performance Model 1000

has increased planting speeds 20 to 30%.

OUR PATENTED FLOAT WHEEL DIRECT DRIVE

SYSTEM is the only one of its kind available. This ground driven float wheel moves straight up and down (5-6") at two flotation points. This patented double floating action maintains correct ground contact at all times for both the drive wheel and rear packing wheels letting the units float independently no matter how many rows. No weight of any hitch, toolbar, or water tank is resting on the drive wheel to compact the soil. The wheel just smooths, firms and ideally prepares the soil providing accurate plant placement, proper depth control, and positive spacings from 6" and up in all soil conditions.

Optional Non-Stick Shoes

Double Disc Poly Shoe

395RP Poly Shoe

Midwest Ind., Inc., Ida Grove, Iowa 51445

For fuel economy and better incorporation put a "Buster-Bar" on your chisel plow, disk, field cultivator or plow. The NEW design provides easy adjustment for working or transport positions. The 7/8" diameter teeth bust clods before they dry and harden. Mounted to wing section to fold with unit.

## Utility Compact Backhoes

8' Maximum digging depth

Category I three-point rigid hitch mounting for maximum digging power. Also available are semi-rigid frame mount kits for some tractors if desired.

Double hydraulic swing cylinders for double swing power and control with the Kelley exclusive patented Hydraulic Swing Cushioning for smooth stopping without the need for rubber swing stops. Adjustable cushioned seat.

Available bucket sizes 9", 12", 15" and 18". All buckets feature heavy-duty design with side cutting edges and "ZA" size replaceable bucket teeth for digging in all types of soils.

Easy to mount and detach, affordable & economical to own & operate.
