

**NELSON HABECKER**  
Lancaster, PA

Only a 20 x 30 Harvestore® structure for high moisture grain, yet shipping nearly 1 1/2 million pounds of milk! How does he do it?  
"I refill my structure with high moisture barley while it still has some high moisture corn in it. With my Power Sweep Auger unloader, the two grains mix nicely and I put it all in total mixed ration."  
**HARVESTORE STRUCTURES-**  
Management tools in the right hands!

The results you may achieve with your Harvestore® System depends primarily upon your management skills and may vary from successful results achieved by others. Any application in a particular farming operation requires the advice of qualified experts and is subject to limitations of good management, weather or other conditions present at the individual location. Harvestore is a registered trademark of A.O. Smith Harvestore Products, Inc.
