## 4H HAPPENINGS

At the last meeting of the Clover Bunch 4-H Prep Club Amelia Thatcher's family of Stockton presented an interesting program on bees. Mr. Thatcher is a beekeeper and showed the members his special beekeeper's suit, a bee hive (no bees!), honeycomb, and other tools. The group learned how helpful the bee is for pollinating our gardens. The members had the opportunity to taste honey, too! Amelia's mom helped the group make a craft project - a mobile with pictures of fruit, vegetables, and honeybees.

#### Silly Putty

8 ounces glue, pour into a bowl; add:  
½ cup water  
Few drops food coloring  
Stir together glue, water, food coloring. In another bowl, combine:

½ cup water  
1 teaspoon 20 Mule Team Borax  
Mix until dissolved as much as possible.  
Slowly add Borax mixture to glue mixture, stirring continually. Mixture will harden. Stir with spoon as long as possible, then use hands.

Mixture is ready to play with. Keep in an airtight bag when not in use.

#### Silly Putty

1 cup Elmer's glue (according to Erla, you must use Elmer's glue)

1 cup boiling water  
Mix well:  
Mix in one tablespoon Borax in one cup cold water. Add several drops of food coloring. Mix all together. Stir well or mix with hands.

**ANSWER** — Nancy Van Cott, New Milford, writes that she has had success in locating old books by doing the following: Check in the business directory of the phone book for a listing of a bookstore that does out-of-print book searches. Call or visit the store and give them the title, author or whatever information known about the book. The store can place an ad in a publication devoted to finding old or out-of-print books for people who are searching for them. The ad should only cost a few dollars. The store will receive notices from people in the antique or used book business who have the book for sale. It is her experience that the bookstore where you paid for the ad will let you know when they receive answers. You may then purchase the book through the individual who replied to the ad.
