PLANNING FOR 1995 FEED STORAGE... WILTED HAY...SILAGE...HI-MOISTURE GRAINS

"This is the kind of silo you need to protect your valuable feed."

"The major costs on dairy and livestock farms are related to FEED: production - harvesting - storage - purchases - delivery to animals."

Significant savings in time and money are possible when you store and deliver your forage from a poured concrete silo, equipped with a Big Jim Distributor/Unloader.

Protect your valuable forages from rain, sleet, snow, mud, ice and wind. Reduce the stress! Increase the efficiency of your feeds, labor, and livestock.

At SOLLENBERGER SILOS CORP. we know a lot about feed storage and handling... we've been in the business since 1908. If you are thinking about new or additional feed storage, give us a call. We'd like to contribute to your success.
