**KELDERMAN  
 AIR RIDE**

Adding a Kelderman Air Ride Conversion system to your present suspension will result in a two stage suspension system. This is not to be confused with adding an Air bag mounted above the axle. Allows adding extra spring leaves to increase load rating and still maintain Air-Ride comfort.

The bolt on basic package utilizes an air stem mounted in a convenient location to add or remove air from the system

Optional 12 volt compressor allows changing air pressure setting on the go.

Currently available for front and rear suspension in Dodge Series 250 & 350 trucks. Available soon for Dodge Dakota models.

Also available for some Ford, Chevy and GMC truck models. Special orders available for most motor homes. This option will smooth out the ride on those rough-road fishing/campin, trips.

**AIR RIDES IN STOCK**

 Your Dealer Who Knows Balers!

**JUMBO  
 BALES**

A Case International 8580 large rectangular baler makes JUMBO bales - up to 2,000 pounds.

It compresses hay equivalent to about 40 conventional bales into a single high-density package. The high-end capacity and performance of the 8580 means you can push these big bales through the machine all day - every day. That's a lot of hay.

And it's quality hay, too. The center-line design handles the crop gently to preserve nutritious leaves. The bales are uniformly shaped for efficient handling and shipping.

The 8580 also has a full list of standard features. Low-profile pickup, pre-packer chamber, massive gearbox, heavy-duty components throughout, electronic monitoring, double-tie knotters and low maintenance. And it's simple to operate. The Case International 8580 is a JUMBO value, too.

**Come & See The All New  
 Truck Dumping Station Blower  
 Feeder at Binkley & Hurst Bros.  
 Today!  
 Stationary Conveyor Box**

**BIG CAPACITY:** 10 x 16' x 32' conveyor box holds an average load allowing your truck to return to the field for another load. The Richardson Model 1016 Conveyor Box automatically and evenly feeds into the blower.

**MINIMUM MAINTENANCE:** Pintle chains and chain drive are used throughout the drive assembly.

**VARIABLE SPEED DRIVE:** Move the load forward to the beaters fast and then slow it down to feed your blower at just the right speed.

**HYDRAULICALLY DRIVEN.** For smooth troublefree operation.

**EASY TO MOVE** Equipped with two-wheel axle tongue, and jack.

**RUGGED CONSTRUCTION** Built into every Richardson product.

**SAFETY** Stop the conveyor from any position by pulling the safety rope that runs the length of the front and the sides of the conveyor box.

AVAILABLE from factory in right or left-hand delivery.

**SPECIFICATIONS:**

Box Construction  
 10' x 16' with 32 sides  
 14 ga steel with tapered steel ribs  
 3/4" marine plywood floor

**Cross Conveyor.**

Chain stat 24" wide  
 Variable hydraulic speed control  
 24" hooded discharge, adjusts up to 40" high

**Apron:**

Dual, with steel slats  
 4 heavy duty pintle chains

**Beaters:**

Dual spiral type

**Hydraulic Requirements:**

Approximately 12 GPM at 1700 PSI
